GHS SAFETY DATA SHEET (GHS)

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

PRODUCT: Part #180 - Clear Gel Coat

FIBRE GLAST DEVELOPMENTS CORP.
385 CARR DRIVE
BROOKVILLE, OH 45309

TELEPHONE: (937) 833-5200
FAX: (937) 833-6555
FOR CHEMICAL EMERGENCY CALL (800) 424-9300 24 HRS.

RECOMMENDED USE: Standard Composite Manufacturing

SECTION 2 – HAZARDS IDENTIFICATION

GHS-US classification
Flam. Liq. 3
Skin Irrit. 2
Skin Sens. 1
Carc. 1B
Repr. 2
STOT SE 3
STOT RE 1

Label Elements

GHS-US labeling

Hazard pictograms (GHS-US):

Signal word (GHS-US): Danger

Hazard Statements (GHS-US):
Flammable liquid and vapour
Causes skin irritation
May cause an allergic skin reaction
May cause respiratory irritation
May cause cancer
Suspected of damaging fertility or the unborn child
Causes damage to organs through prolonged or repeated exposure
Precautionary statements (GHS-US) : Keep away from heat, hot surfaces, open flames, sparks. – No smoking
Keep cool
Do not breathe dust, fume, gas, mist, spray, vapours
Wash hands, forearms and face thoroughly after handling
Avoid release to the environment
Wear protective clothing, protective gloves, eye protection
Immediately call a doctor, a POISON CENTER
In case of fire: Use ABC-powder, carbon dioxide (CO2), dry extinguishing powder, dry sand, foam to extinguish
Store in a well-ventilated place. Keep container tightly closed
Dispose of contents/container to an approved waste disposal plant

Other hazards
No additional information available

Unknown acute toxicity (GHS-US)
Not applicable

SECTION 3 – COMPOSITION/INFORMATION ON INGREDIENTS

The specific chemical identities are being withheld as a trade secret (29CFR1910.1200).

SECTION 4 – FIRST AID MEASURES

Description of first aid measures

First-aid measures general : move the affected person away from the contaminated area. Immediately consult a doctor/medical service. If possible, show them this sheet. Failing this, show him the packaging or label. Do not leave affected person unattended.

First-aid measures after inhalation : Call a physician immediately. If unconscious place in recovery position and seek medical advice.

First-aid measures after skin contact : After contact with skin, take off immediately all contaminated clothing, and wash immediately with plenty of water. Rinse immediately with plenty of water for 15 minutes. If symptoms persist, call a physician.

First-aid measures after eye contact : Remove contact lenses, if present and easy to do. Continue rinsing. Rinse immediately and thoroughly, pulling the eyelids well away from the eye (15 minutes minimum). If eye irritation persists, consult a specialist.

First-aid measures after ingestion : In all cases of doubt, or when symptoms persist, seek medical advice. IF SWALLOWED: rinse mouth. Do NOT induce vomiting. Do not give milk.

Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation : May cause respiratory irritation.
Symptoms/injuries after skin contact: Skin irritation, dermatitis and sensitization. May cause sensitization of susceptible persons by skin contact.

Symptoms/injuries after ingestion: May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract.

**Indication of any immediate medical attention and special treatment needed**
If you feel unwell, seek medical advice.

---

**SECTION 5 – FIRE-FIGHTING MEASURES**

**Extinguishing media**

**Suitable extinguishing media**: Alcohol resistant foam. Dry chemical powder. Carbon dioxide.

**Unsuitable extinguishing media**: high volume water jet.

**Special hazards arising from the substance or mixture**

**Fire Hazard**: Do not allow run-off from fire fighting to enter drains or water courses.

**Reactivity**: Stable under normal conditions.

**Advice for firefighters**

**Firefighting instructions**: Comply with local regulations for disposal.

**Protection during firefighting**: In case of fire: Wear self-contained breathing apparatus.

**Other information**: Use water spray/stream to protect personnel and to cool endangered containers. Collect contaminated fire extinguishing water separately. Do not allow entering drains or surface water.

---

**SECTION 6 – ACCIDENTAL RELEASE MEASURES**

**Personal precautions, protective equipment and emergency procedures**

**For non-emergency personnel**

**Protective equipment**: Wear suitable protective clothing.

**Emergency procedures**: Remove all sources of ignition. Ensure adequate ventilation. Evacuate personnel to a safe area. Special attention should be given to low areas/pits where flammable vapours can accumulate.

**For emergency responders**: No information available

**Environmental precautions**: Prevent entry to sewers and public waters. Notify authorities if liquid enters sewers or public waters.

**Methods and material for containment and cleaning up**

**For containment**: Collect the residue by means of a non-combustible absorbent material. Collect all waste in suitable and labelled containers and dispose according to local legislation.
Methods for cleaning up: Collect spillage. Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Store in a well-ventilated place. Keep container tightly closed.

SECTION 7 – HANDLING AND STORAGE

Precautions for safe handling

Additional hazards when processed: Use isolated drainage to prevent discharge to soil. Take precautionary measures against static discharge. The product may charge electrostatically: use earthing wires when transferring from one container to another. In order to rule out potential electrostatic discharge production, the system must be adequately grounded.

Precautions for safe handling: Do not exceed the occupational exposure limits (OEL). Avoid contact with skin and eyes. Provide sufficient air exchange and/or exhaust. Provide good ventilation in process area to prevent formation of vapour.

Hygiene measures: Do no eat, drink or smoke when using this product.

Conditions for safe storage, including any incompatibilities

Storage conditions: Store in a dry, well ventilated place away from sources of heat, ignition and direct sunlight. Containers which are opened should be properly resealed and kept upright to prevent leakage.

Storage temperature: <25°C

Heat and ignition sources: This material can be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights, mechanical/electrical equipment, and electronic devices such as cell phones, computers, calculators, and pagers which have not been. Explosion-proof electrical equipment and lighting with earth. Electrical equipment should be protected to the appropriate standard.

**Exposure controls**

- **Materials for protective clothing**: chemical resistant safety shoes. Overall.
- **Hand protection**: Wear suitable gloves. PVC gloves. A waterproof cream can protect exposed skin parts. Do not use if contact has already taken place. In case of reutilization, clean gloves before taking off and store in well- aired place. Before removing gloves clean them with soap and water. Protective gloves have to be replaced at the first sign of deterioration.
- **Eye protection**: Emergency eye wash fountains and safety showers should be available in the immediate vicinity of any potential exposure. Safety glasses with side shields. Do not wear contact lenses.
- **Skin and body protection**: Wear anti-static footwear and clothing. Tight protective clothing required. Only wear fitting, comfortable and clean protective clothing. Wash clothing before re-using. Avoid contact with skin. May cause sensitisation of susceptible persons by skin contact.
- **Respiratory protection**: In case of insufficient ventilation, wear suitable respiratory equipment. If excessive exposure exists, use only approved air-purifying or supplied air respirator operated in a positive pressure mode. Consult supplier for specific recommendations.
- **Environmental exposure controls**: Do not empty into drains.

**SECTION 11 – TOXICOLOGICAL INFORMATION**
Acute toxicity: Not classified

Styrene (100-42-5)
ATE US (vapours) 11,000 mg/l/4h

Skin corrosion/irritation: Causes skin irritation.
Serious eye damage/irritation: Not classified
Respiratory or skin sensitization: May cause an allergic skin reaction.
Germ cell mutagenicity: Not classified
Carcinogenicity: May cause cancer

Styrene (100-42-5)
IARC group 2B – Possibly carcinogenic to humans
National Toxicology Program (NTP) Status 3 – Reasonably anticipated to be a Human Carcinogen
In OSHA Hazard Communication Carcinogen list Yes

Methyl methacrylate (80-62-6)
IARC group 3 – not classifiable

Reproductive toxicity: Suspected of damaging fertility or the unborn child.
Specific target organ toxicity (single exposure): May cause respiratory irritation.
Specific target organ toxicity (repeated exposure): Causes damage to organs through prolonged or repeated exposure.
Aspiration hazard: Not classified
Symptoms/injuries after inhalation: May cause respiratory irritation.
Symptoms/injuries after skin contact: Skin irritation, dermatitis and sensitization. May cause sensitization of susceptible persons by skin contact.
Symptoms/injuries after ingestion: May cause burns or irritation of the linings of the mouth, throat, and gastrointestinal tract.

SECTION 12 – ECOLOGICAL INFORMATION

Toxicity
Styrene (100-42-5)
LC50 fish 1 10 mg/l
EC50 Daphnia 1 4,7 mg/l
ErC50 (algae) 4,9 mg/l
NOEC chronic crustacea 1,01 mg/l

Persistence and degradability
PL405-1 MF Marine 45% Clear
Persistence and degradability No data available.

Bioaccumulative potential
PL405-1 MF Marine 45% Clear
Bioaccumulative potential No data available.

Styrene (100-42-5)
Log Pow 3
Mobility in soil: No additional information available

Other adverse effects:
Other adverse effects: No data available.
Effect on the global warming: No known ecological damage caused by this product.

SECTION 13 – DISPOSAL CONSIDERATIONS

Waste treatment methods
Regional legislation (waste): Disposal must be done according to official regulations. Hazardous waste. Solvent.

Sewage disposal recommendations: Do not allow to enter surface water or drains.

Waste disposal recommendations: Dispose of this material and its container to hazardous or special waste collection point. Handle contaminated packaging in the same way as the product itself.

SECTION 14 – TRANSPORT INFORMATION

Department of Transportation (DOT)
In accordance with DOT
Transport document description: UN1866 Resin solution (flammable), 3, III
UN-No.(DOT): UN1866
Proper Shipping Name (DOT): Resin solution flammable
Transport hazard class(es) (DOT): 3 – Class 3 – Flammable and combustible liquid 49 CFR 173.120
Hazard labels (DOT): 3 – Flammable liquid
Packing group (DOT): III – Minor Danger
DOT Packaging Non Bulk (49 CFR 173.xxx): 173
DOT Packaging Bulk (49 CFR 173.xxx): 242
DOT Special Provisions (49 CFR 172.102):
B1 - If the material has a flash point at or above 38 C (100 F) and below 93 C (200 F), then the bulk packaging requirements of 173.241 of this subchapter are applicable. If the material has a flash point of less than 38 C (100 F), then the bulk packaging requirements of 173.242 of this subchapter are applicable.
B52 - Notwithstanding the provisions of 173.24b of this subchapter, non-reclosing pressure relief devices are authorized on DOT 57 portable tanks.
IB3 - Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2); Composite (31HZ1 and 31HA2, 31HB2, 31HN2, 31HD2 and 31HH2). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 C (1.1 bar at 122 F), or 130 kPa at 55 C (1.3 bar at 131 F) are authorized, except for UN2672 (also see Special Provision IP8 in Table 2 for UN2672).
T2 - 1.5 178.274(d)(2) Normal.................. 178.275(d)(3)
TP1 - The maximum degree of filling must not exceed the degree of filling determined by the following: Degree of filling = 97 / (1 + a (tr - tf)) Where: tr is the maximum mean bulk temperature during transport, and tf is the temperature in degrees celsius of the liquid during filling.

DOT Packaging Exceptions (49 CFR 173.xxx) : 150
DOT Quantity Limitations Passenger aircraft/rail (49 CFR 173.27) : 60 L
DOT Quantity Limitations Cargo aircraft only (49 CFR 175.75) : 220 L
DOT Vessel Stowage Location : A - The material may be stowed “on deck” or “under deck” on a cargo vessel and on a passenger vessel

Additional information
Other information : No supplementary information available

Transport by sea
No additional information available

Air transport
No additional information available
