Assembly Instructions:

Assemble End Members, Spacer Tube, and Cross Braces as shown above. Use 1/4" x 2 1/2" Hex Bolt and Lock Nut to connect Cross Braces at their centers. Use 1/4" x 3/4" Hex Bolts and Lock Nuts to attach Cross Braces and Spacer Tube to End Members. Fasten End Members to floor using fasteners suitable for your floor type (Not Included).

Use a rubber mallet or other non-marring tool to insert an end cap into each end of each core tube. Slide core tubes through centers of product rolls and place ends of core tubes onto brackets on front of assembled display.
