SECTION 4 – FIRST AID MEASURES

General advice: Do not leave victim unattended. Show this safety data sheet to doctor in attendance.

In case of eye contact: Flush immediately with cold water for 15 minutes. Remove contact lenses. Keep eye wide open while rinsing. Get prompt medical attention.

In case of skin contact: Remove contaminated clothing and wash affected area with soap and warm water. If irritation persists, seek medical attention. Launder contaminated clothing and shoes prior to reuse.

If inhaled: Expose individual to fresh air and/or oxygen if light-headed or having difficulty breathing. If difficulty breathing persists, seek medical attention.

If swallowed: Seek immediate medical attention. Do not induce vomiting. If spontaneous vomiting occurs, keep victim’s head below hips to prevent aspiration into lungs. Do not leave individual unattended.

SECTION 5 – FIRE-FIGHTING MEASURES

Extinguishing media: Standard procedure for chemical fires. Use dry chemicals, carbon dioxide, water fog, water spray, or alcohol-resistant foam. Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Unsuitable extinguishing media: Water may be unsuitable as an extinguishing media but helpful in keeping adjacent areas cool. Avoid spreading burning liquid with water used for cooling purposes. Do not use water jet.

Special hazards from substance or mixture: None

Advice for firefighters: Special protective equipment for firefighters: Wear self-contained breathing apparatus with full face piece and protective clothing. Avoid contact with skin and eyes.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment, emergency procedures: Use personal protective equipment. Ensure adequate ventilation. Keep sources of ignition and hot metal surfaces isolated from spill.

Environmental precautions: Prevent product from entering drains. Stop spill at source and prevent further leakage or spillage if safe to do so. If product contaminates rivers, lakes, or drains, notify proper authorities.

Methods/Materials for containment and cleaning up: Flush spilled materials into suitable retaining areas or containers. Small amounts of spilled materials may be absorbed with any standard absorbent. Confine spill and place into suitable container for disposal. Dispose of in accordance with regional, national, and local laws and regulations.
SECTION 7 – HANDLING AND STORAGE

Precautions for safe handling: For personal protection, see Section 8. Smoking, eating, and drinking should be prohibited in the application area. Empty containers may contain product residue such as vapors, continue to observe safe handling precautions.

Advice on protection against fire and explosion: Normal measures for preventive fire protection. Keep work areas free of hot metal surfaces and other sources of ignition.

Conditions for safe storage, including any incompatibilities: Requirements for storage areas and containers: Store in cool, dry location below 100°F (38°C) and away from open flames, heat, and sparks. Keep container tightly closed when not in use. Observe label precautions.

SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters: No specific data available for this product.

Exposure controls: Use with adequate ventilation.

Personal protective equipment:
Hand protection: Wear chemical-resistant, impervious gloves.
Eye protection: Safety glasses with side shields or goggles are recommended. Eye wash stations are recommended for the work area.
Skin and body protection: Wear impervious clothing and shoes. Safety showers are recommended for the work area.
Respiratory protection: Provide sufficient general and/or local exhaust.
Hygiene measures: Do not eat, drink, or smoke while using. Wash hands before breaks and at the end of workday.

Environmental exposure controls: Prevent product from entering drains. Stop spill at source and prevent further leakage or spillage if safe to do so. If product contaminates rivers, lakes, or drains, notify proper authorities.
