

GHS SAFETY DATA SHEET (SDS)

SECTION 1 - PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NAME: PART #1580, 1781 (Perforated) — Low Temperature Release Film

FIBRE GLAST DEVELOPMENTS CORP. 385 Carr Drive BROOKVILLE, OH 45309

TELEPHONE: (937) 833-5200 FAX: (937) 833-6555 FOR CHEMICAL EMERGENCY CALL (801) 629-0667 24 HRS.

RECOMMENDED USE: Release Film

SECTION 2 - HAZARDS IDENTIFICATION

Emergency overview

Appearance: Form: solid

Color: varying

Odor: odorless

Classification: Article not subject to hazard labelling or classification.

Regulatory status

This material is not considered hazardous by the U.S. OSHA Hazard Communication Standard (29 CFR 1910.1200) and SIMDUT in Canada.

Hazards not otherwise classified

Toxic fumes may be emitted at elevated temperatures. Do not breathe vapor. see section 11: Toxicological information

SECTION 3 - COMPOSITION/INFORMATION ON INGREDITENTS

Chemical characterization:

Article: Thermoplastic film

SECTION 4 - FIRST AID MEASURES

In case of inhalation: In case of inhalation of decomposition products, affected person should be

moved into fresh air and kept still. If the casualty has difficulty breathing, call

a doctor immediately.

Following skin contact: Remove residues with soap and water. After contact with molten product,

cool skin area rapidly with cold water. Do not peel solidified product off the

skin. Seek medical attention.

After eye contact: In the event of irritation from processing vapors: Immediately flush eyes with

plenty of flowing water for 10 to 15 minutes holding eyelids apart. In case of

troubles or persistent symptoms, consult an opthalmologist.

After swallowing: Not a probable route of exposure.

In the case of the formation of dust: Rinse mouth. Seek medical treatment in case of

troubles.

Most important symptoms/effects, acute and delayed

In case of inhalation: Inhalation of dust may cause irritation of the respiratory system. After contact with skin: Thermal decomposition products or aerosols can cause irritation. Other symptoms: Itching redness of the skin and oedema

(swelling).

The melted product can cause severe burns. After eye contact:

Process vapors can irritate the eyes. Dust contact with the eyes can lead to

mechanical irritation.

Information to physician

Treat symptomatically

SECTION 5 - FIRE FIGHTING MEASURES

Flash Point (flash point range): No data available Auto Ignition Temperature: No data available

Suitable Extinguishing Media: Water, fog, carbon dioxide, dry chemical, foam

Extinguishing Media which must not be used: High power water jet (for safety purposes)

Specific hazards arising from the chemical

This material is combustible, but will not ignite readily. Toxic fumes may be

emitted at elevated temperatures.

In case of fire may be liberated: Carbon monoxide and carbon dioxide.

Protective equipment and precautions for firefighters:

Wear a self-contained breathing apparatus and chemical protective clothing.

Additional information: Seal off endangered area. Cool endangered containers with water spray and, if possible, remove from danger zone. Use a water fog to control vapors. Do not

breathe fumes. Do not allow fire water to penetrate into surface or ground water

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Personal precautions: Handle in accordance with good industrial hygiene and safety practice.

At processing: Avoid the formation of aerosol/vapors. Avoid dust formation. Avoid inhalation and contact with skin and eyes. Wear appropriate protective equipment. Keep unprotected people away. Ensure adequate ventilation,

especially in confined areas.

Environmental precautions:

Do not allow to penetrate into soil, waterbodies or drains.

Methods for clean-up: Take up mechanically, placing in appropriate containers for disposal.

Dispose of waste according to applicable legislation.

SECTION 7 - HANDLING AND STORAGE

Handling

Advices on safe handling: Handle in accordance with good industrial hygiene and safety practice.

At processing: Provide adequate ventilation, and local exhaust as needed. Avoid dust formation. Avoid the formation of aerosol/vapors. Avoid inhalation and contact with skin and eyes. Wear appropriate protective equipment. Keep unprotected people away.

When using do not eat, drink or smoke.

Precautions against fire and explosion:

Take standard precautions to prevent fire.

Storage

Requirements for storerooms and containers:

Keep in a cool place. Keep container dry. Protect from direct sunlight. Keep away

from incompatible materials. Store at room temperature.

Hints on joint storage: Incompatible materials: Strong bases, strong acids, strong oxidizing agents.

Keep away from food and drinks.

SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure guidelines

Occupational exposure limit values:

Туре	Limit value
USA: ACGIH: TWA	10 mg/m³ (Dust limit value, inhalable fraction)
USA: ACGIH: TWA	3 mg/m³ (Dust limit value, respirable fraction)

USA: OSHA: TWA 15 mg/m³ (Dust limit value, inhalable fraction)
USA: OSHA: TWA 5 mg/m³ (Dust limit value, respirable fraction)

Engineering controls

Provide good ventilation and/or an exhaust system in the work area.

In case of development of vapors or dust (at processing): Use local exhaust.

See also information in chapter 7, section storage.

Personal protection equipment (PPE)

Eye/face protection At processing (recommended): Safety glasses in accordance with

OSHA 29 CFR: 1910.133 or ANSI Z87.1-2010.

Skin protection At processing (recommended): Wear suitable protective clothing

Recommendation:

Protective gloves according to OSHA Standard - 29 CFR: 1910.138. Glove material: nitrile rubber, neoprene (0.11 mm)

Breakthrough time: >480 min.

Observe glove manufacturer's instructions concerning penetrability and breakthrough

time.

Respiratory protection: Respiratory protection is not necessary if room is well ventilated.

At processing:

When vapors form, use respiratory protection. The filter class must be

suitable for the maximum contaminant concentration

(gas/vapour/aerosol/particulates) that may arise when handling the product. If the concentration is exceeded, self-contained breathing apparatus must

be used.

General hygiene considerations:

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and after work. When using do not eat, drink or

smoke.

At processing:

Avoid contact with skin, eyes, and clothing. Do not breathe vapor. Do not breathe dust

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance: Form: solid

Color: varying

Odor: odorless

Odor threshold: No data available

pH value:

Melting point/freezing point:

No data available

No data available
Initial boiling point and boiling range:

Flash point/flash point range:

No data available

No data available

Evaporation rate:

No data available

Flammability: This material is combustible, but will not ignite readily.

Explosion limits: No data available

Vapor pressure:No data availableVapor density:No data availableDensity:No data available

Water solubility: insoluble

Partition coefficient: n-octanol/water:

Auto-ignition temperature:

Thermal decomposition:

Additional information:

No data available

No data available

SECTION 10 - STABILITY AND REACTIVITY

Reactivity: Refer to section: Possibility of hazardous reactions.

Chemical stability: Stable under recommended storage conditions.

Possibility of hazardous reactions

No dangerous reactions with proper and specified storage and handling

Conditions to avoid: Keep away from heat. Protect from direct sunlight. Avoid generation of

dust. Avoid the formation of aerosol/vapors.

Incompatible materials: Strong bases, strong acids, strong oxidizing agents.

Hazardous decomposition products:

carbon monoxide and carbon dioxide.

Thermal decomposition: No data available

SECTION 11 - TOXICOLOGY INFORMATION

Toxicological tests

Toxicological effects: The statements are derived from the properties of the single components. No

toxicological data is available for the product as such.

Acute toxicity (oral): Lack of data.

Acute toxicity (dermal): Lack of data.

Acute toxicity (inhalative): Lack of data.

Skin corrosion/irritation: Lack of data.

Serious eye damage/irritation: Lack of data. Sensitisation to the respiratory tract: Lack of data.

Skin sensitisation: Lack of data.

Germ cell mutagenicity/Genotoxicity: Lack of data.

Carcinogenicity: Lack of data. Reproductive toxicity: Lack of data. Effects on or via lactation: Lack of data.

Specific target organ toxicity (single exposure): Lack of data. Specific target organ toxicity (repeated exposure): Lack of data.

Aspiration hazard: Lack of data.

Other information: Toxic furnes may be emitted at elevated temperatures. Processing, e.g. by

cutting, sawing or grinding, can produce particles and dust. Dust may irritate

airways and cause bronchitis symptoms.

Symptoms

In case of inhalation: Inhalation of dust may cause irritation of the respiratory system. After contact with skin: Thermal decomposition products or aerosols can cause irritation. Other symptoms: Itching redness of the skin and oedema (swelling).

The melted product can cause severe burns.

After eye contact:

Process vapors can irritate the eyes. Dust contact with the eyes can lead to

mechanical irritation.

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity

Effects in sewage plants: The insoluble part can be precipitated mechanically in suitable sewage treatment plants.

Further details: No data available

Mobility in soil

No data available

Persistence and degradability

Further details: Product is not biodegradable.

Additional ecological information

General information: Do not allow to penetrate into soil, waterbodies or drains

SECTION 13 - DISPOSAL CONSIDERATIONS

Product

Recommendation: Dispose of waste according to applicable legislation.

Contaminated packaging

Recommendation:

Dispose of waste according to applicable legislation. Handle contaminated packages in the same way as the substance itself. Non-contaminated packages may be recycled. Do not remove label until container is thoroughly cleaned

SECTION 14 - TRANSPORT INFORMATION

USA: Department of Transportation (DOT)

Proper shipping name: Not restricted

Sea transport (IMDG)

Proper shipping name: Not restricted

Marine pollutant: NO

Air transport (IATA)

Proper shipping name: Not restricted

Further information

No dangerous good in sense of these transport regulations

SECTION 15 - REGULATORY INFORMATION

National regulations - U.S. Federal Regulations

This product is an article as defined by TSCA regulations, and is exempt from TSCA inventory listing requirements.

National regulations - Great Britain

Hazchem-Code:

SECTION 16 - OTHER INFORMATION

Revision Date

5/8/2023

The information accumulated herein is believed to be accurate but is not warranted to be whether originating with **Fibre Glast Developments Corporation** or not. Recipients are advised to confirm in advance of need that the information is current, applicable, and suitable to their circumstances.

Hazard rating systems:

NFPA Hazard Rating:

Health: 1 (Slight)
Fire: 1 (Slight)
Reactivity: 0 (Minimal)
HMIS Version III Rating:
Health: 1 (Slight)

Flammability: 1 (Slight) Physical Hazard: 0 (Minimal)

Personal Protection: X = Consult your supervisor
