1. Introduction

SEBI has mandated 2FA authentication from the next financial year reference SEBI circular no CIR/MRD/DP/ 8 /2011.

To comply with this mandate NOW has implemented mutual authentication and 2 factor authentication in the form of image and question & answer.

NOW Exe version 1.7.1.0 has these features incorporated.

2. Login Procedure

2.1. Steps for setting 2FA for Web User

- Enter Member ID & User ID

2FA Authentication

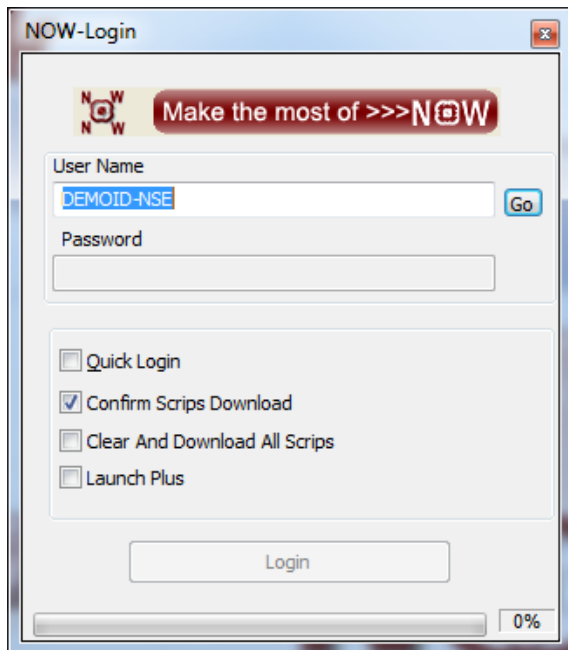

Member Id	<input type="text" value="NSE"/>
Login Id	<input type="text" value="TEST+NSE"/>

Please answer the following questions and proceed

Which is the most famous landmark near your home? (Eg: XYZ Theater, ABC Mall, etc)	<input type="text" value="••••"/>
What was the brand name of your first vehicle?	<input type="text" value="••••"/>

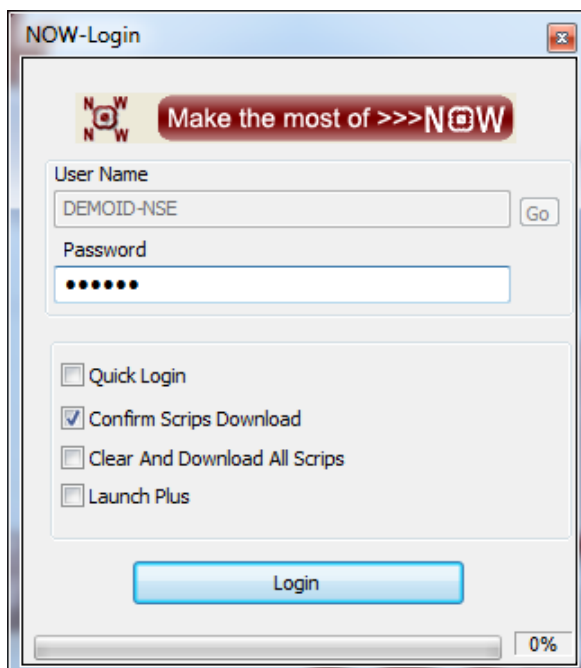

2.2. Steps for setting 2FA for NOW Exe User

- Enter username

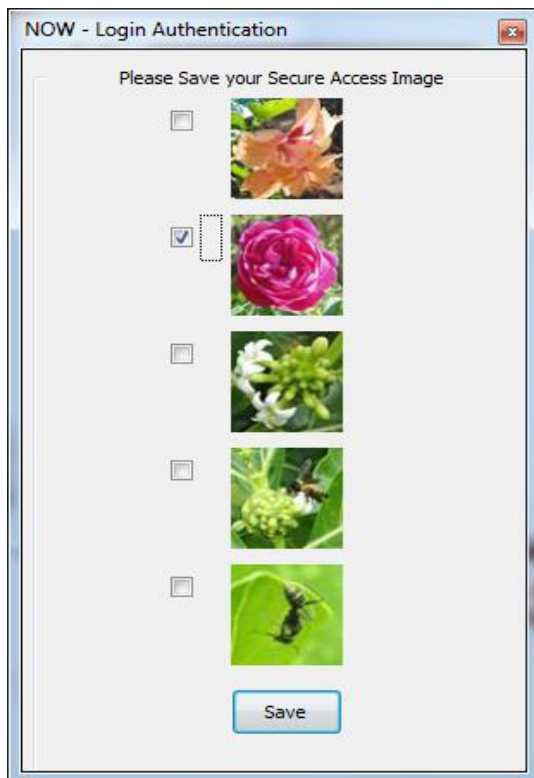

The screenshot shows the 'NOW-Login' window. At the top left is the NOW logo. To its right is a red banner with the text 'Make the most of >>>NOW'. Below this is the 'User Name' field containing 'DEMOID-NSE' and a 'Go' button to its right. Below the 'User Name' field is the 'Password' field, which is currently empty. Underneath the password field are four checkboxes: 'Quick Login' (unchecked), 'Confirm Scripts Download' (checked), 'Clear And Download All Scripts' (unchecked), and 'Launch Plus' (unchecked). At the bottom center is a 'Login' button. In the bottom right corner, there is a progress bar showing '0%'.

- Select 'Go' button or press enter key & enter password

The screenshot shows the 'NOW-Login' window after the password has been entered. The 'User Name' field still contains 'DEMOID-NSE' and the 'Go' button is now disabled. The 'Password' field is filled with seven black dots. The 'Login' button at the bottom center is now highlighted in blue. The progress bar in the bottom right corner still shows '0%'.

- Select any one image out of five.

- Answer any five out of 20 questions & press 'save' button

NOW - Login Authentication

Kindly answer any 5 questions for User Authentication

What is your mother's maiden name?

3. Client / User blocked for 2FA

Client/User will be given three attempts for 2FA. In each attempt the client/user will be prompted for two random questions out of the five questions against which the client/user had set the answers.

Client/User will be blocked from login in case he fails to provide correct answers for any of the question set in three attempts.

Client / user are required to contact Admin for enabling their login id. Once client / user are enabled for login the client / user will be again prompted to set answers against any 5 questions out of 20 questions displayed.

4. Reset 2FA answers

In case a client/user has forgotten the answers of the questions initially set for 2FA, he can request the Admin to reset the 2FA answers.

When the Admin resets the 2FA answers an email will be sent to the client/user with the 5 questions which were set by the client/user and system generated answers for those questions.
