

GXP DP715 Major Functions

CALL HOLD

Place a call on hold by pressing the  button on the Handset. Press the “Recall” button again to release the previously held Caller and resume conversation.

CALL WAITING

Call waiting tone (3 short beeps) indicates an incoming call, if the call waiting feature is enabled.

Toggle between incoming call and current call by pressing the  button. First call is placed on hold. Press the “Recall” button to toggle between two active calls.

CALL TRANSFER

Blind Transfer

This function is applicable using the Handset for VoIP calls only. Assume that parties **A** and **B** are in conversation. Party **A** wants to *Blind Transfer B* to **C**:

1. **A** presses  on the Handset to hear the dial tone.
2. **A** dials ***87** then dials caller **C**'s number, and then # (or wait for 4 seconds)
3. **A** will hear the dial tone. Then, **A** can hang up.

Note: “Enable Call Feature” must be set to “Yes” in web configuration page.

Attended Transfer

This function is applicable using the Handset for VoIP calls only. Assume that parties **A** and **B** are in conversation. Party **A** wants to *Attend Transfer B* to **C**:

1. **A** presses  on the Handset for dial tone.
2. **A** then dials Caller **C**'s number followed by # (or wait for 4 seconds).
3. If **C** answers the call, **A** and **C** are in conversation. Then **A** can hang up to complete transfer.
4. If **C** does not answer the call, **A** can press “flash” to resume call with Caller **B**.

Note: When Attended Transfer fails and A hangs up, the DP715 will ring back user A to remind A that B is still on the call. A can pick up the phone to resume conversation with B.
