

How do I import an app into Qlik Sense Server?

Introduction

This document describes the process of importing a Qlik Sense .qvf file into Sense server. This app will then be available for development and publishing to a Stream.

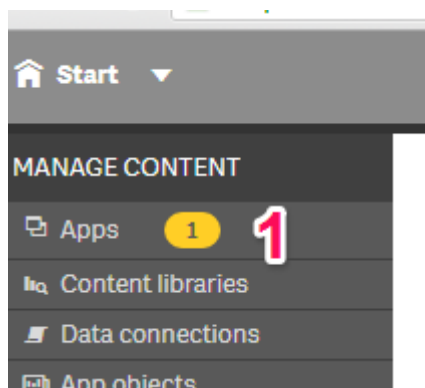

(If using Qlik Sense Desktop, the .qvf app files are located in C:\Users\

Pre-requisites

- Qlik Sense server installed and licenced
- Browser must support HTML5 upload
- User must have been assigned either Root Admin, Security Admin, or Content Admin role

Method

1. Open the Qlik Sense Management Console by navigating to <https://<server name>/QMC>
2. Select Apps from the Start screen (1)

3. Select Import from the Apps screen (2)

Informance Limited

Warwick Innovation Centre, Warwick Technology Park
Gallows Hill, Warwick, CV34 6UW. England
Tel: +44(0)1926 623 456. Web: www.informance.co.uk

Informance Limited. Company No: 05826989. Registered in England and Wales
Registered Office: Warwick Innovation Centre, Warwick Technology Park, Gallows Hill, Warwick, CV34 6UW

- Click the Choose File button (3) and navigate to where the .qvf Qlik Sense file is stored

Import app

Choose File
No file chosen
3

This field is mandatory.

App name

This field is mandatory.

If the name of a data connection in the imported app is the same as the name of an existing data connection, the data connection will not be imported.

Cancel
Import

- Change the App name if you are not happy with the default (4) and click Import (5)

Import app

Choose File
Cars and stuff.qvf

App name

If the name of a data connection in the imported app is the same as the name of an existing data connection, the data connection will not be imported.

Cancel
Import

6. Progress will be shown in the bottom right corner

Ongoing transports: 1 items		
Process	Name	Duration
✓ Import	Cars and stuff	00:00:02

The App will now be available in the QMC for publishing, and in the Qlik Sense Hub 'My Work' section for the user that performed the import.
