

Turning on eSpark Notifications

Have students allow the microphone, speaker, and push notifications the first time they log into eSpark.

On the iPad, this looks like:

On other devices, this looks like:

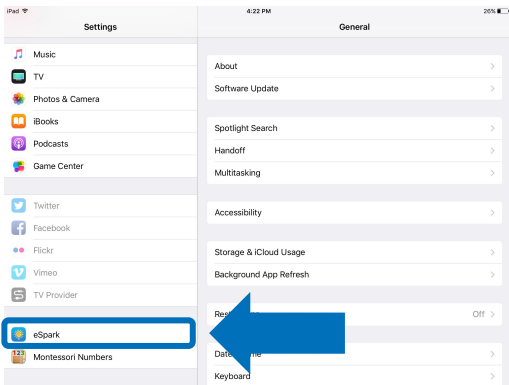

If students forget to allow the notifications, follow the directions below.

On the iPad:

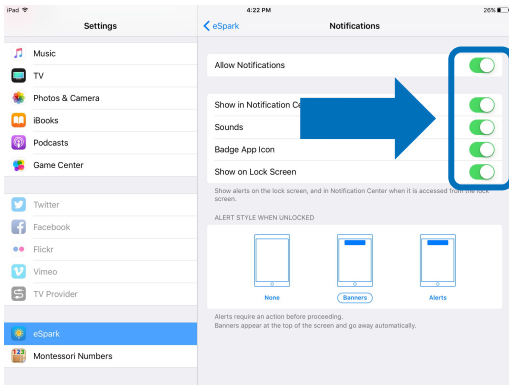

1. Select "Settings"

2. Scroll down until you see eSpark (in the left pane) Select it.

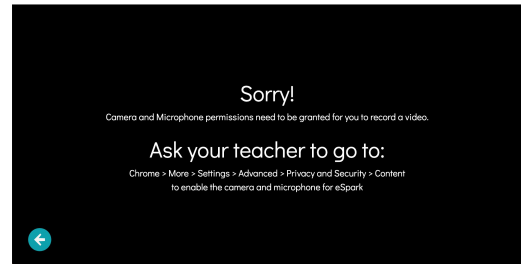

3. Make sure all notifications are turned on.

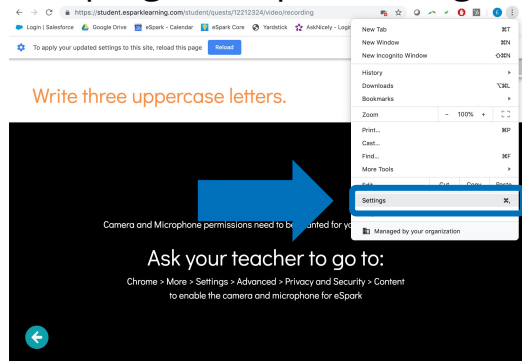

On the Chromebook and other devices:

1. If students have not enabled the microphone or camera, they'll see this message:

2. Use the three vertical dots menu at the top right to open Settings.

3. Go to Advanced → Site Settings → Camera → Select the arrow next to eSpark → Allow the camera & microphone
