Installation Notes	5
Key Changes	6
Bug Fixes	7

Released January 25, 2020

Document Owned by PowerSchool

This release notes document applies to version 20.1.0.0 of PowerSchool Enrollment Express.

This document copyright 2019 PowerSchool. All rights reserved.

Versions

The following table lists the versions of Enrollment Express contained within this release:

Component:	Version:
PowerSchool Enrollment Express	EEX_20.1.0.0
Ecollect Subscription Manager (installed separately)	ESM_19.12.0.0

Installation Notes

Due to an incompatibility issue between Ecollect Subscription Manager and newer versions of PowerSchool, all customers are asked to contact Support directly for upgrade assistance. Please open a Support Case in [PowerSchool Community](#) to initiate the upgrade process.

NOTES:

- **Subscription Manager must be upgraded to ESM_19.12.0.0 prior to installing Ecollect.** The updated Subscription Manager plugin can be downloaded here: [Subscription Manager](#)
Note: Prior version of subscription manager will no longer permit Ecollect updates. ESM_19.12.0.0 is required.
- It is recommended that the installation of Ecollect coincide as closely as possible with a system restart. **Ecollect functionality will be impaired between the installation of Ecollect and the PowerSchool application restart.**

New Features

Feature:	Description:
Parent/Family SSO	<ul style="list-style-type: none">• With Single Sign-On (SSO), parents can now upload documents within forms without needing to create or sign into a separate account. If SSO is enabled, when a parent or student opens a form in the PowerSchool Student and Parent portal, they will be automatically authenticated and can seamlessly interact with document attachment fields.
New District Configuration Tools	<ul style="list-style-type: none">• District Administrative users now have more autonomy of Enrollment Express configuration. The following items can now be configured:<ul style="list-style-type: none">○ Custom notification email on initial submission of a pre-registration form, which users can enable and create the template to be sent to the families on completion of the form.○ Enable rejection emails○ Define SIS Enrollment School Number○ Define Next Student Number○ Read FTP credentials○ Define Country, which automatically localizes the pre-registration form with relevant country specific fields.

Resolved Issues/Bug Fixes

Issue:	Description:
Parent – Multiple Choice Element	As a parent completing a form, if a multiple-choice element only has one option, the single choice is always selected. This issue is now resolved.
Admin - Saving Enrollment Configuration	When configuring Enrollment, if the email entered for the District Administrative user is exceeds 50 characters, an error appears, which prevents saving the configuration. This issue is now resolved.
