

Install a Printer and Set to Default

1. In the lower left hand corner of your desktop click “Type here to search”

2. Type \\LOE1

3. Press Enter key

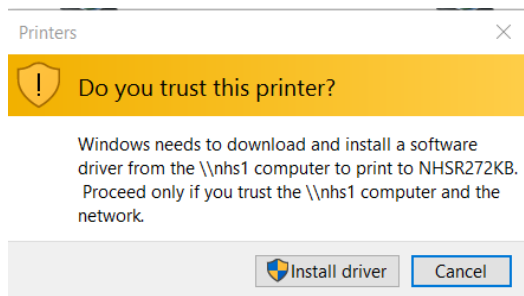

4. Double click a printer in your area. For example, LOER196KB is in room 196. KB=Konica Copier B/W, KC=Konica Copier Color, HB=HP printer B/W, HC=HP Printer Color

5. It could take a minute or so to connect.

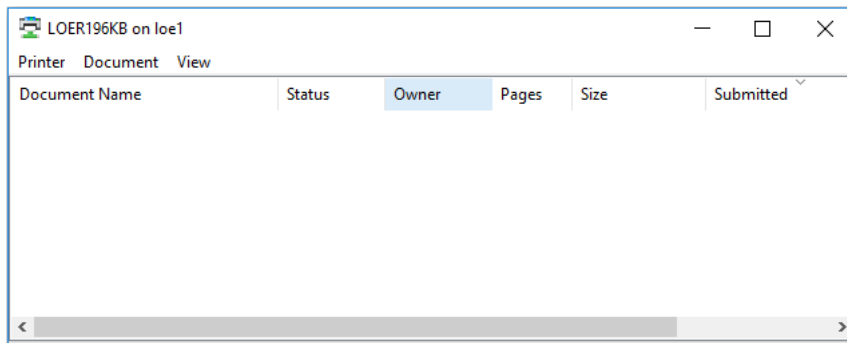

6. Click Install driver

7. It may take a couple of minutes for the printer installation to complete.

8. After it finishes you will see a box similar to this.

9. To set the printer as default click "Printer" from the menu and choose "Set as Default Printer"
