# ZingHR Release Notes

## • Introduction

This document communicates the new features and enhancements in this release of the ZingHR Web Application Attribute Version It also documents known problems and workarounds.

## • About This Release

This release aims at making the end user self-sufficient to configure the system as per requirements and seamlessly use the feature functionalities. It focuses on the end user experience for ease of usage and simplicity in work flows.

## • Compatible Browsers

This product has been tested on the following browsers Except Recruitment Module.

- ▯ Chrome
- ▯ Firefox

## • Features

### ZingCore

- **User Login Restriction** – You can restrict user to login at a time in a single system, If users already have logged in and try to login in different system then system shows alerts message to kill the previous session and continue in the current system. This will be applicable only when you have kept flag on for that client. Currently Flag enable and disable configuration is available in the system from the backend.
- **Identity Proof** – We have added one new option under Aadhar Card section called 'Not Available'. If the user doesn't have Aadhar number, then they have to Enter Not Available in Aadhar number fields.
- **Helpdesk Call Owner** – We have built the configuration in a setup circle from where you can set multiple call owner based on your attribute selection against one category. We will circulate the user manual for the same.
- **HR Handbook** – We have removed .xls and .xlsx extension file format to upload from setup in HR Handbook. As of now only preview is available. User can't download anything from HR Handbook.

### Claims

- **Automated Claim Accrual program** – We have made a change in accrual program where as system checked last month eligibility and push it to next month in case of claim eligibility not configured in the system based on attribute wise.
- **Bank JV Format** – HDFC Bank file format for claim reimbursement has been incorporated in the system.
- **Notification Claims Data Download** – We have added Four columns called 'Applied Date', 'Total Applied Amount', 'Last Action Date' and 'Total Approved amount' while downloading the claim data from notification Page.

## TNA/LMS

- **Leave Encashment** – Leave Encashment Application Cancellation workflow has been incorporated in the system, now user can cancel the leave encashment application from transaction history page before approval and After Approval. Also, we have incorporated Approve and Reject button on email body itself. The manager can take action directly from the email body. Also, we have enabled the proxy login in Leave Encashment Application form.
- **Comp-Off Email Triggered Configuration** - Now we can enable/disable email sending option as per client requirement through backend.

## Investment

- **Investment Configuration Screens** – We have built the configuration screen from where the user can configure the Investment Type, Open and close the declaration period, can move the pointer from declaration to verify amount or vice versa from the screen itself.

## Reports

- **Employee Document Report** – Employee Document Upload Audit report is now available in report gallery. Now we will be able to see the document which ever uploaded against the employee in the report.
- **Monthly Leave Balance Report** - Monthly Leave Balance Report is now available in report gallery for all Leaves types based on Financial.

- **Limitations**

- No specific limitations are there with reference to current feature releases.
