

Annexure A

Conversion from PropCtrl to Feed-in or Vendor change

This document stipulates the intention to convert from PropCtrl or approved vendor feed-in to an alternative approved vendor feed-in, and overrides section 7 of Annexure D.

A Feed-in to Property24 from your existing website will require integration from your technology partner (TP) and may incur an additional cost. Please note, as of 1 September 2014, there will be an additional maintenance cost charged for new feed-in accounts and existing feed-in accounts that change vendors. Property24 will contact your TP and upon successful completion of vetting, will commence the integration.
