Features 3

Base ESS.....Error! Bookmark not defined.

Features

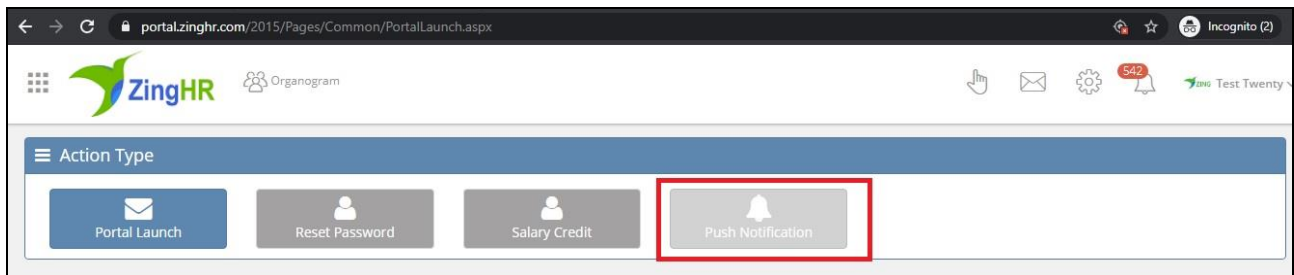

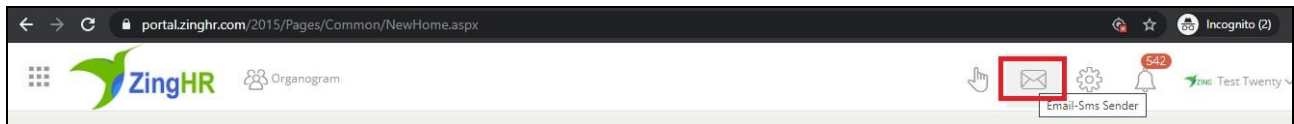

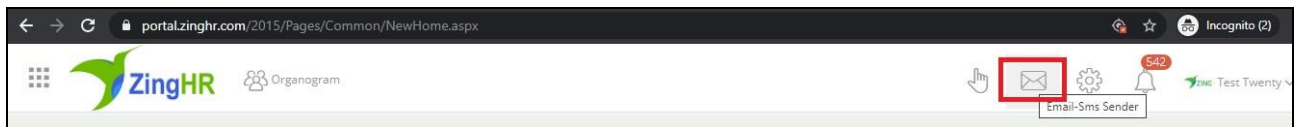

This release aims at making the end user self-sufficient to configure the system as needed and seamlessly use the features & functionalities. It focuses on the end user experience for ease of usage and simplicity in work flows.

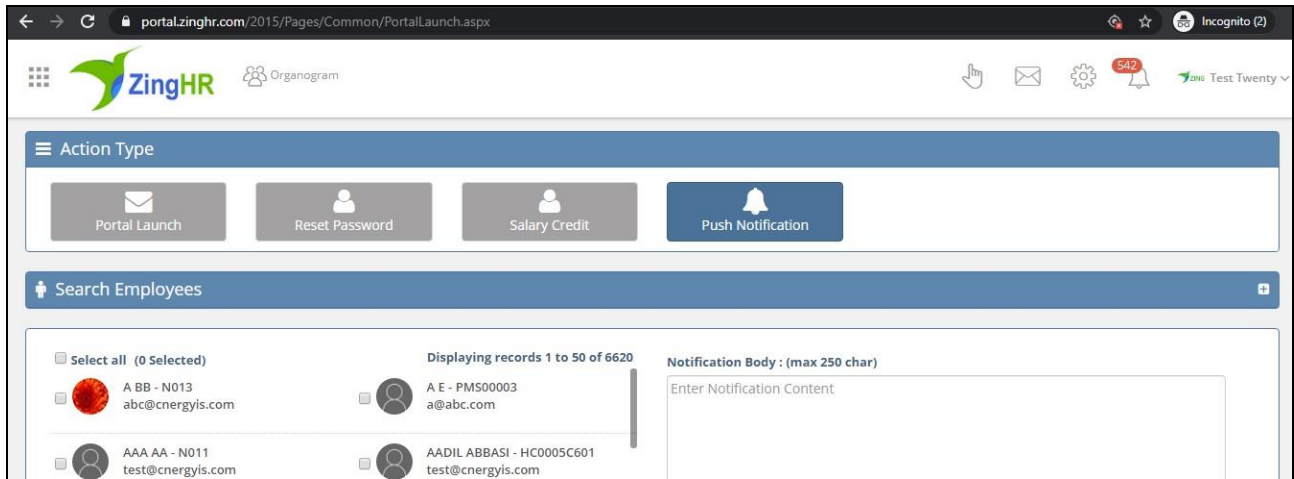

These features have been tested on the following browsers.

- GoogleChrome
- MozillaFirefox

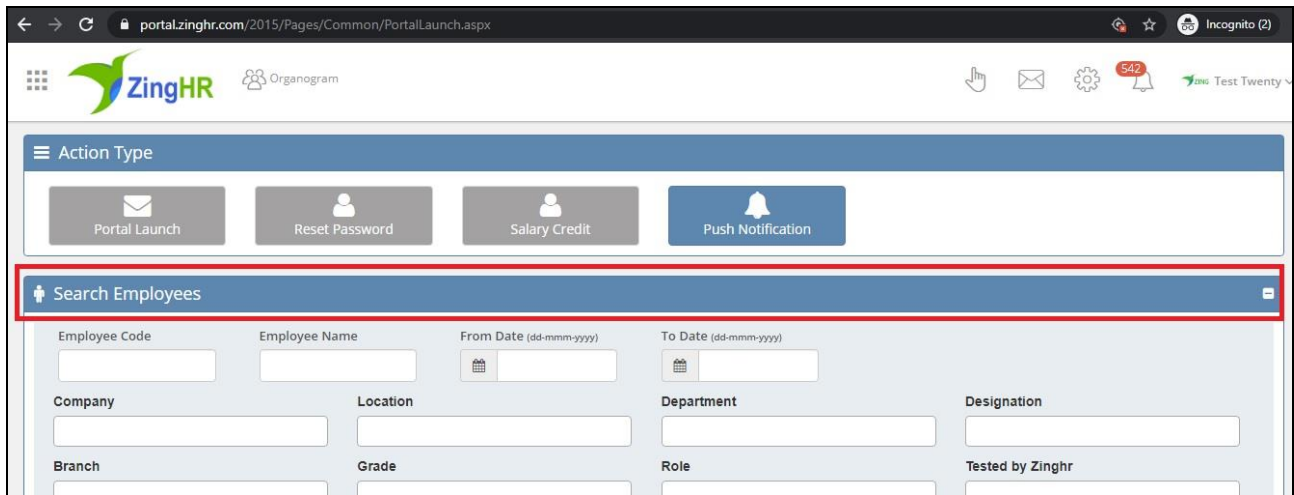

Base ESS:

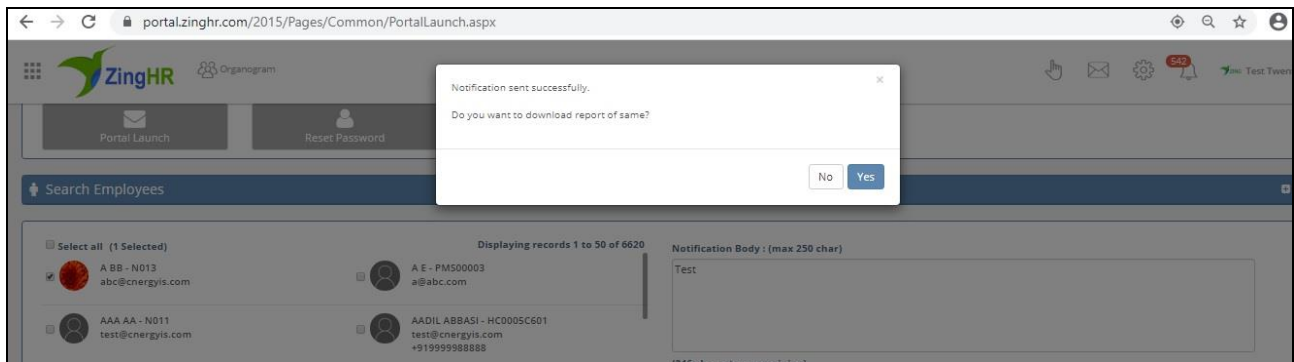

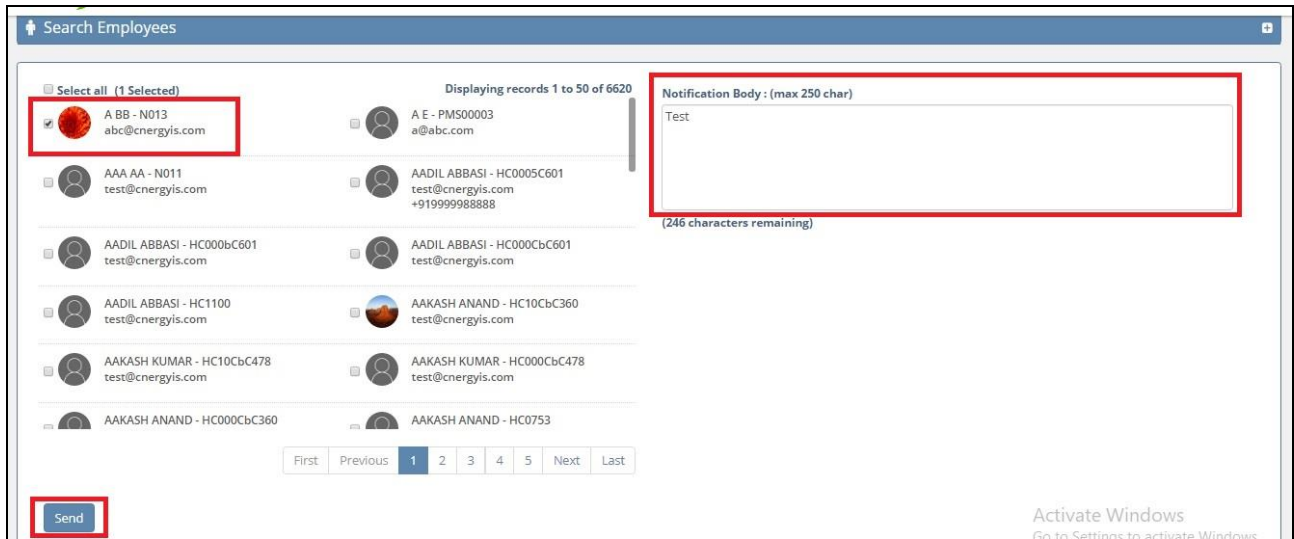

Push Notification to Mobile App - As we have enhanced the functionality of Push Notification. We have enabled this through web application to hit the notification in Mobile App.

Using search option, user can filter the employees based on selected attribute combination.

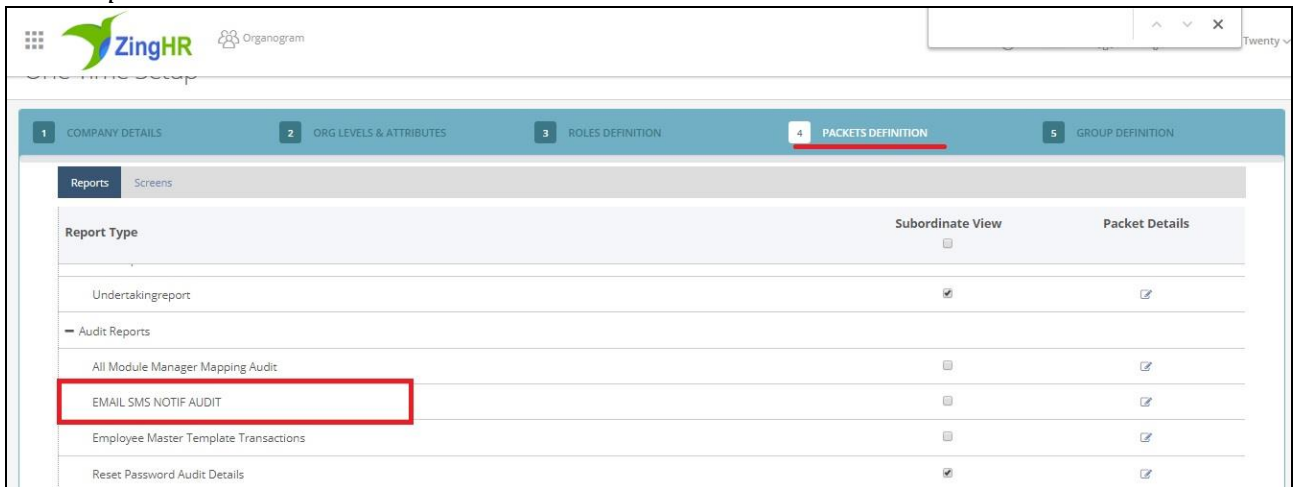

Report will look like below:

A	B	C	D	E	F	G	H
Employee Code	Salutation	First Name	Last Name	Contact	Notification Status (Sent from Zing Server)		
N013	Mr.	A	BB		Yes		

Also, if push notification is sent to all employees then email will be triggered to Logged in Employee with Report.

Release Date: 31-Mar-2020

We can have the audit report available in Report Section with name "Email SMS Notification Audit Report."

Notification will appear in employee login as below as per description
