Features

This release aims at making the end user self-sufficient to configure the system as needed and seamlessly use the features & functionalities. It focuses on the end user experience for ease of usage and simplicity in work flows.

These features have been tested on the following browsers.

- GoogleChrome
- MozillaFirefox

Transfer:

Optimization of Transfer Page - As we have come up with an enhancement in optimization on page load for large volume of data having attribute coupling on large volume of attribute data with respect to data binding.

Designation Office Boy	Role-Minimum Wage Office Support Officer	Category Unskilled	Designation Office Boy	Role-Minimu	
Manager KMBL58892	HR-RM code KMBL98828	Attendance Mobile	Manager KMBL58892	HR-RM code	
Work day Calendar 5 Days	Business Unit T & M	Professional Tax State Maharashtra	Work day Calendar 5 Days	Business Uni	

API:

Push API - This is a new feature introduced as PushAPI. It is a new API for push employee data in ZingHR with Employee Creation, Employee Updation And Employee Deletion.

With following section

- Employee Basic Details
- Employee Identity Details
- Employee Attribute Details
- Employee Payroll Details
- Employee Skill Details
- Employee Qualifications Details
- Employee Certification Details
- Employee Employment History Detail
- Employee Ecode Series Logic Implementation

PMS:

- **Filter** - As we have come up with new enhancement in PMS with search functionality. Using this we can filter the details based on policy and attributes

Fixes:

We identified a few fixes that were needed to strengthen the product functionality. We have incorporated the below list of fixes along with this release.

- **Notification** - *Previously if an notification count having 0 value then while accessing the notification, system was throwing an error. Now issue has been fixed and would be able to access the notification tab without an error.*
- **Filter Report** - *Report filter issue has been fixed. Now able to access the record with filter while generating the report.*
- **Document Upload Screen**- *Previously pagination was upto 500 now it is extended upto 2500.*
- **OAS** -*Pdf download error solved in OASys.*
- **ePMS** - *Spelling correction is done on Message Display on Sumbit event of Goal Creation. Corrected message display as “**Weightage should not exceed 100**”*
- **ePMS** - *As previously, On Create and Approve goals, employee was able to view the comments of manager. Now the issue is fixed. On Create and Approve goals ,the comments visibility is turned off for employee as per policy configuration.*
