Features

This release aims at making the end user self-sufficient to configure the system as needed and seamlessly use the features & functionalities. It focuses on the end user experience for ease of usage and simplicity in work flows.

These features have been tested on the following browsers.

- GoogleChrome
- MozillaFirefox

ELC:

Letter Generation (Experience Letter/ Relieving Letter) – This is a new enhancement. Previously, when the DOL changes were done through E-Resign Override screen, the DOL was not getting updated in generated letters. Now, if modification/updation is done by an Admin/HR for the DOL then updated DOL will also reflect in the generated **Experience Letter/ Relieving Letter**.

Report Gallery:

PunchIN Details With Location – This is a new feature enhancement. We have introduced one more column in the ‘**PunchIN Details with Location**’ report named as ‘**Attendance Mode**’. This column will represent the source of swipe/device through which the swipe is captured i.e. which is nothing but the source as below,

1. Web - Punch IN
2. Web - Punch OUT
3. Mobile - Punch IN
4. Mobile - Punch OUT
5. BIO

Screenshot 1 :

Employee Code	Employee Name	Swipes	Type	Latitude Value	Longitude Value	Area	Attendance Mode
		8/6/2020 8:01	Punch OUT			string	Web - Punch OUT
		8/6/2020 8:01	Punch OUT			string	Web - Punch OUT
		8/6/2020 18:47	Punch OUT			string	Web - Punch OUT
		8/7/2020 8:07	Punch OUT			string	Web - Punch OUT
		8/8/2020 9:00	Punch OUT			string	Web - Punch OUT

Super Employee Master – We have come up with new introduction in functionality of Super Employee Master Report. Now, report has been modified in such a way that we have removed the columns of **LMS Manager1, LMS Manager2 and LMS Manager3** and added new column as **'ReportingManagersManagerName'**. This column will show **ED Manager** details of reporting manager's manager of an employee.
