You want your website to have an easy, end-to-end buying experience—without a checkout solution that feels tacked on. Forte Checkout is a customizable payment interface that plugs into your existing site with just a few lines of code. You accept the payments, and we store and secure the sensitive data for you.

## FLEXIBILITY

A robust checkout solution that can be configured to your needs.

### Clean and user-friendly

The responsive design overlays your existing site and reads perfectly on any device.

### Customizable payment form

Maintain full control over the data collected via forms.

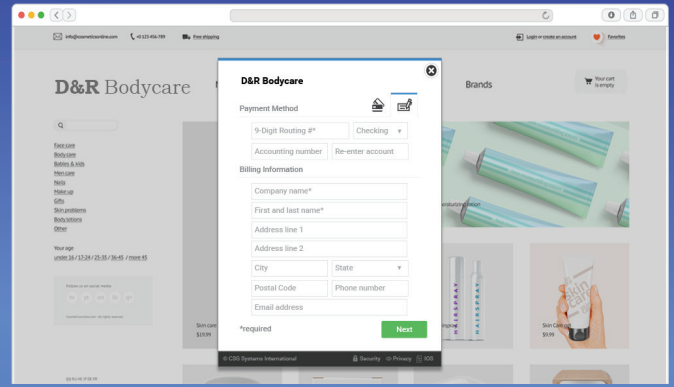

### Intelligent features

Customers can store account information, set up recurring transactions and more.

Integrated checkout solution built to be robust yet flexible

# Why should you use Forte Checkout?

- ✔ Sensitive information is tokenized for added security
- ✔ Strong authentication and data integration
- ✔ Customers can save and edit payment and account information
- ✔ Stored payment information makes for simple return or recurring sales
- ✔ Customers stay on your site from cart to checkout with no redirects

## { Made for developers }

Our full-stack APIs and detailed documentation make it easy to integrate with Forte Checkout with just a few lines of code.

Other integration options include Secure Web Pay Checkout, Forte.js, REST, AGI and Batch.

ROBUST

A checkout solution that has you covered.

Swift and secure payments

Our PCI-compliant solutions keep data safe using encryption and tokenization.

Process any payment

Accept credit/debit cards and eChecks online with Forte Checkout.

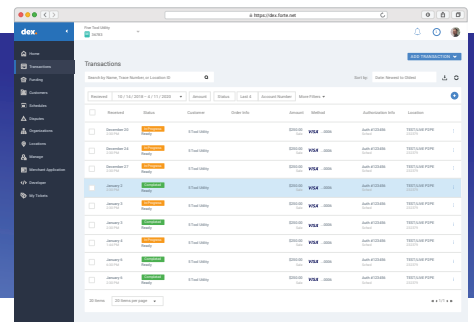

Supporting hardware

Compatible with multiple point-of-sale devices for card-present solutions.

## Meet Dex.

- ✔ Dex is a cloud-based platform that provides complete payments management in one location.
- ✔ Reporting, disputes management and more—right at your fingertips.
