

Swipe. Dip. Tap.

Accept any card payment with modern, simple point-of-sale terminals and readers.

Even in the digital age, in-person is powerful. You need a fast, reliable POS terminal to give your customers the best buying experience on the go. Forte offers a range of EMV- and contactless-enabled terminals that are user-friendly and secure. And using our Forte Protect encryption, our terminals carry an extra layer of protection against fraud.

KEY BENEFITS

Add in-person card payment acceptance to your payment ecosystem

Hardware options

Accept in-person payments with our selection of Magtek card readers and Verifone terminals.

Fast processing

Cut wait times with powerful card readers that work quickly and efficiently.

High security

Swipe, dip and tap with security technology in line with today's industry standards.

Start accepting in-person transactions today

Find the card-present solution that is right for you.
