ZingHR Web Application

Attribute Version 12.3

Table of Contents

Features	3
BASE ESS.....	3
Position Management.....	13
ELC.....	13
Fixes:	14

Features

This release aims at making the end user self-sufficient to configure the system as needed and seamlessly use the features & functionalities. It focuses on the end user experience for ease of usage and simplicity in work flows.

These features have been tested on the following browsers.

- Google Chrome
- Mozilla Firefox

BASE ESS:

Date wise Leave Details API - This is an existing feature enhancement .Earlier in this API date was not captured i.e on which date manager has taken action on leave .Now we have added following columns which will help in understanding and providing details of leave status, when action was taken and what remarks manager has entered .Following are the newly added fields .

1. Approver1Status - Leave status given by Approver 1.
2. Approver1Remarks - Remarks given by Approver 1
3. Approver1actionDate- Captures Action date of leave taken by Approver 1
4. Approver2Status -Leave status given by Approver 1.
5. Approver2Remarks-Remarks given by Approver 1
6. Approver2actionDate -Captures Action date of leave taken by Approver 2
7. Approver3Status - Leave status given by Approver 1.
8. Approver3Remarks- Remarks given by Approver 1
9. Approver3actionDate -Captures Action date of leave taken by Approver 3

API Example

Input Parameters :

```
{  
  "SubscriptionName": "product",  
  "Token": "70dd7c2b0xxxxx6aeb35a41f461a2ef",  
  "EmployeeCode": "AK1002"  
}
```

Response :

```
{
  "Code": 1,
  "Message": "Success",
  "EmployeeLeaveTransactions": [
    {
      "EmployeeCode": "AK1002",
      "LeaveTypeCode": "PL",
      "LeaveTypeDescription": "Paid Leave",

"AttendanceMode": "PunchIN"  
    }  
]  
}
```

Position Management:

Manager Mapping Report – This is a new feature. Now we have introduced the report which will help the user to identify the manager mapped against the position along with the details of employee mapped to position.

ELC:

Conditional Acceptance Letter – This is feature enhancement. Now after approval of resignation, HR can generate the **Conditional Acceptance Letter** and same will be available in ELC Dashboard. Also HR will have the provision to push the letter in employee dossier.

Also we can set **Conditional Acceptance Letter** as per below mentioned screenshots:

Whereas field can be enabled on respective ESEP form as below :

Fixes:

We identified a few fixes that were needed to strengthen the product functionality. We have incorporated the below list of fixes along with this release.

- **Claim Violation Workflow** –Previously if the violation workflow is set in approval workflow, then even though the violation approver was not mapped to an employee then also claims were able to be applied successfully. Now, validation message is provided on Claim Application Form. If the violation workflow is set then on claim application page message will be displayed if the violation approver is not set.

Screenshot :

- **Claim Parallel Approver** –Previously if the parallel approver is resigned then resigned approver was used to consider in claim transaction workflow. Now the same is fixed and transaction will be considered for active parallel approvers only.
