1.1	05/02/2018	Release
1.2	24/05/2018	Updated Product Names

Introduction

The 'Logs' section of the console can be used to display the number of active clients, users and Acceptable Use Policy (AUP) actions over a period. This is often used to determine usage statistics for your devices and information obtained can also be exported for later review by others.

Viewing Client status using the 'Logs' Console.

Follow the steps below to access the 'Logs' page once you have logged in to the console.

Select 'Logs' and 'Machines' to display a list of devices that match the 'filters' criteria on the left.

<input type="checkbox"/>	Machine Name	Group	Client Version	Unactioned	Word Phrase	Internet	AUPs	Last Profile request
