

SmartTV Ecomode Configuration

The Samsung SmartTV ECO mode is enabled by default. It will automatically set the TV to standby after a certain period. This behaviour brings a lot of complains in a hotel because the guests are thinking the TV set is broken.

Ecomode Configuration access **after** initial [configuration](#)

1. Disable widget solution in hotel mode
2. Set Menu Display in hotel mode-> menu OSD "on"
3. Follow "Disabling Ecomode before initial configuration"
4. Set Menu Display in hotel mode-> menu OSD "off"
5. Enable widget solution in hotel mode

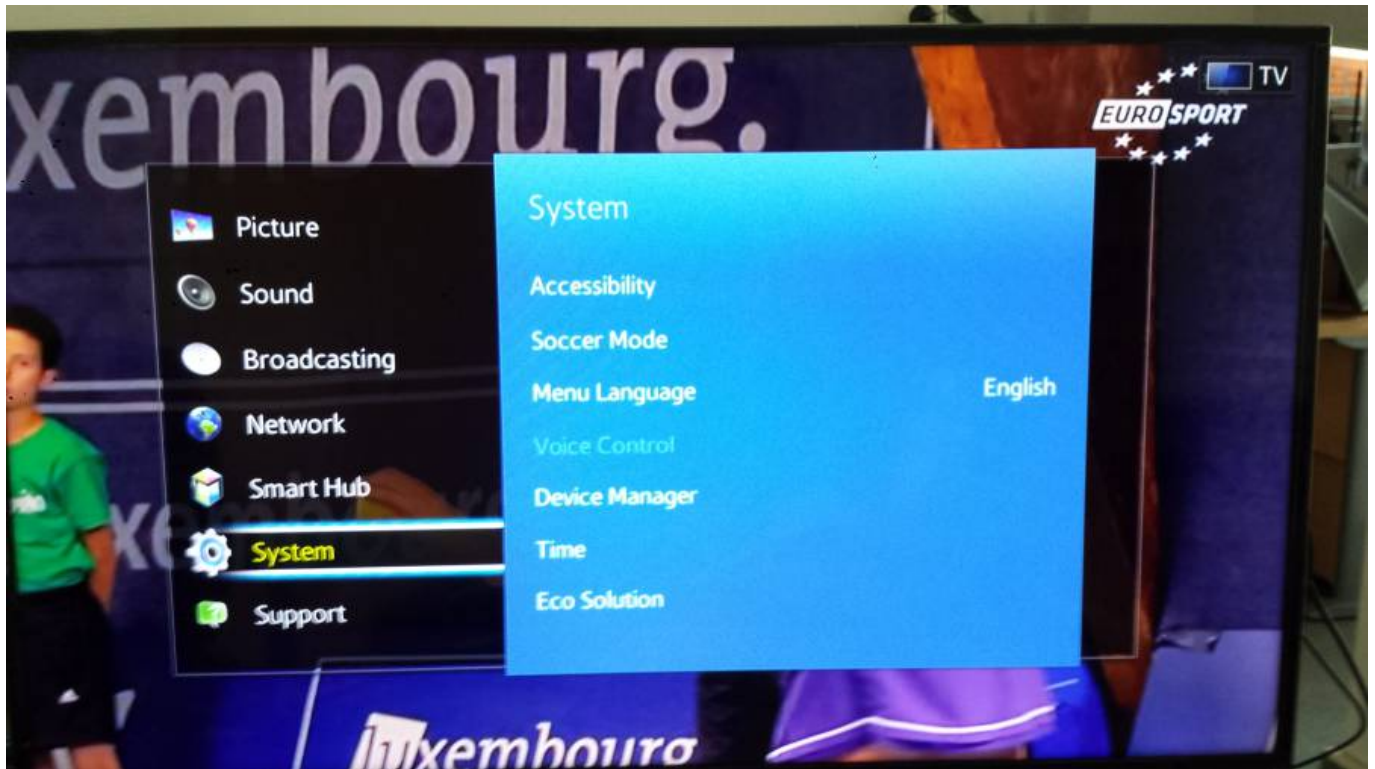

Disabling Ecomode **before** initial [configuration](#)
