THE SOLAR COMPANY YOU CAN COUNT ON

Powur has raised millions in investor funding for a better way to go solar. Our unique business model eliminates the middleman so customers receive the lowest prices with the best service.

Powur has installed solar on thousands of U.S. homes, and works across a vast network of equipment suppliers and tier 1 solar installers to deliver reliable, inexpensive, clean energy you can count on. The future is clean, cheap energy and Powur will get you there.

DIVERSE FINANCING OPTIONS

Powur has the most robust product offering and financing options available in the solar industry. We make it painless and easy for homeowners to transition to solar. Here's an at-a-glance overview of the financing and products that we offer:

\$0 Down Lease: Offers a low, fixed monthly payment for 20 years. Full and partial prepay options for added savings.

\$0 Down Loan: Pay for your system with a low APR, fixed cost loan for terms ranging from 10 to 25 years. With a loan, you keep all the eligible tax credits and solar rebates!

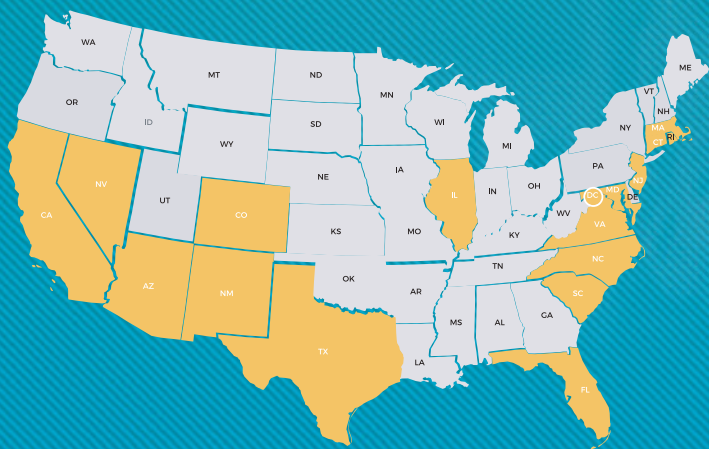

Cash: Buy the system outright and own the energy from day one. Benefits from available tax credits go straight to you.

No matter which option you decide is best for you, the result will be the same: clean energy for your home and more money in your pocket for the things you really care about.

THE STATES WE SERVE

Powur currently services 19 states in the U.S. covering almost 70% of the U.S population.

COMMITTED TO A BETTER WORLD

For every solar installation we facilitate, Powur donates \$5 to the Pachamama Alliance, a leading organization helping to protect millions of acres of pristine Amazon rainforest and educating people across the world on environmental sustainability.

If you are ready to see the substantial energy savings of your future solar system, contact a Powur Consultant for your free proposal today!
