

Release 41B – Release Notes

Release published 24th May 2017

WorkReady Positions – <https://app.WorkReady.jobs>

- **Enhancement:** The validation for the Police Check has been improved. It now requires an additional text area to be filled if a user selects "Other" as a purpose of police check.

The address history validation has also been enhanced. It now checks for a continuous period of 5 years, with no gaps larger than 30 days being allowed through.

This enhancement can be accessed at the TikForce Streamlined Police check, and also if the Police Check is used as a Smart Collector.

Verification Portal - <https://verify.tikforce.com>

- **New Feature:** Verifiers will now have multiple options for payments while verifying a user from the unverified list. When the verifiers click on verify identity they can
 - Declare that the photo is the person listed.
 - Select a different Profile Pack if required.

After selecting the profile pack, they can choose one of the following methods:

1. Pay by Credit Card and Verify
2. Verify and request an invoice
3. Verify Only (when user has paid before starting the Tikforce position)
