

## Release 53 – Release Notes

Release Published 6th Sep 2017

Tikforce Positions- <https://app.Workready.jobs>

**Enhancement:** A user trying to access the WorkReady.jobs site directly will be taken to the Positions page of the app.tik.me site.

**Enhancement:** Positions which have Post Verify option enabled, now require ID Photos to pass facial recognition.

**Enhancement:** The Workready application address has been changed from app.workready.jobs to positions.tikforce.com for consistency in the system.

**Enhancement:** When a user goes through a Velpic Induction, their passing score is now saved to their credential.

**Enhancement:** For the Post Verify positions users now have the option to change their email address when they click on the link shared with them for the first time.

The process now for users for the Post Verify position is:

\*Set Password > Confirm Email > Confirm Details > ID Photo

\*Set Password is only accessible to new users added via Add & Assign Worker in Org, and have post verify position shared with them.

This enhancement can be accessed from any WorkReady Position that has the Post Verify Option Enabled

**Enhancement:** On a Standard Police Check Smart collector, users are advised that it's mandatory to provide a purpose of the police check by displaying a message that "You have to give your reasons for requesting a Police Check" when a user does not select any of the given reasons for their Police Check.

**Enhancement:** On the Police Check Smart Collector, if a police check has already been submitted or completed by the user, the status (in progress or completed) is displayed on the index page once the user logs in.

**Enhancement:** The TikForce Positions’ User Interface has been updated for a cleaner and more user friendly experience.

**Enhancement:** The progress bar in TikForce Positions has been updated to give a clearer indication to the user of their progress for the position they are applying for.

**Bug Fix:** The price for the positions that have no cost associated with them is now displayed as FREE.

**Bug Fix:** An error “ Incorrect file type” is now shown to the user If a user tries to upload documents with incorrect file types in the New Smart Identity Process.

**Bug Fix:** An issue with error messages causing stretching graphics in the Basic Information page of the new Smart Identity Process has been fixed.

**Bug Fix:** An issue with users seeing an internal server error if they go through the Green Id Verification process after having their verification reset by TikForce Admin was fixed.

**Bug Fix:** An issue with creating new police checks causing an internal server error in Admin has been fixed.

**Bug Fix:** An issue with an internal server error occurring if a user fails backend validation in the streamlined npc has been fixed.

Tik.me Portal- <https://app.tik.me>

**Enhancement:** The ability to resume TikForce positions from the app.workready.jobs system has been moved to app.tik.me.

**Note:** This functionality is available only if the user is logged in to the TikForce platform, otherwise the user will be taken to the WorkReady Marketing Site.
