

Release Published 11th Oct 2017

Organisation Portal (Org) – <https://org.tikforce.com>

New Feature: A Positions Details Page has been added to the Org System To facilitate the Upload of documents for a Position for a user.

An **Entity Manager** can now upload docs on behalf of a user. An admin or manager can upload documents for their direct employees only.

The ability to add Credential uploads is limited to only those Position credentials that allow document uploads. i.e. the Manager cannot fill out a Police Check for the user, but can upload a police check document.

Similarly, they cannot perform a Velpic Induction, but the Velpic induction credential will be listed. The status of the credentials is listed and only "**non-complete**" credentials allow uploading.

This new feature can be accessed from Org portal at:

Main menu > Workers > Manage Workers > View Details > User's Positions > View Details > Add Credential (below Position credentials)

Enhancement: The Worker Profile Certificate, has been redesigned and updated to the newer pdf layouts for consistency across the system.

This enhancement can be accessed from Org portal at:

Main menu > Workers > Manage Workers > View Details > Generate Worker Profile Certificate (displayed on the bar on top below user's details).

Enhancement: Updated the screen layout of the organisation search results page to utilise the full screen width and display more information.

Enhancement: Entity Managers are now able to view all workers (i.e. even the ones allocated by suppliers) for positions in the Org portal.

This feature can be accessed from org portal at:

Main menu > Positions > Manage Positions > View Details > Manage Workers for the Positions

Enhancement: Added Chart widgets that display the number of workers that have been assigned or completed a position to the allocated positions details page.

This enhancement can be accessed from Org portal at:

Main menu > Positions > Allocated Positions > View Details

Tik.me Portal- <https://app.tik.me>

Bug Fix: An issue with an empty red box displaying when a user entered an invalid email address from the password reset screen has been fixed.

Tikforce Positions- <https://positions.tikforce.com>

New Feature: A worker may have their (position) “credential” for a position made exempt for a period of time. Only a worker with a role of “**Exemptor**” may perform this operation.

For more information regarding this feature, refer to:

Teams > TikForce Team > General > Files > Exemptor

This new feature can be accessed on the following pages:

- 1) Org Portal > Associations > Manage Suppliers > {supplier} > View Details > {position} > View Workers
- 2) Org Portal > Positions > Manage Positions > {position} > View Details > Manage Workers for Position

Verification Portal - <https://verify.tikforce.com>

No Changes

Core Functionality

New Feature:
