

Release scheduled to Go live on 11-Jan-2018

What's New

- New features like Exemptible Credential Groups and Projects to support the requirements for Anglo Gold.
- Admins can now upload user's ID Credential images/PDFs on behalf of the user.
- AgileCRM Tags have been standardised to improve use inside AgileCRM.
- Security enhancements to ensure safety of user's data.

Release Details

Tik.me Portal- <https://app.tik.me>

Enhancement: Workers who have their position set to "Declined" by an assessor, can now go back into the position from their Tik.me profile to make amendments.

This enhancement can be assessed from user's Tik.me profile at:

Tik.me Dashboard > Positions > Declined Position > Go to Position > Make Amendments

Enhancement: All references to Australia Post have been removed from the Mandrill email templates. User's should no longer see any references to Australia Post in their emails from TikForce.

Note: Temporarily, the Daxtra Resume Upload functionality from app.tik.me has been removed. It will be re-introduced at some later stage.

Organisation Portal- <https://org.tikforce.com>

Enhancement: The user's "Display Name" is used on the Work List page and the user's "Full Name" together with what they are known as, is displayed on the User Details page.

Standard functions have been created across various models to standardise the display of user's names.

Enhancement: Administration Portals (Org, Verify and Admin) display the portal name in the header.

Enhancement: The Expiring/Expired Credentials list does not allow sending of reminders when there are no records.

Enhancement: AgileCRM Tags have been standardised to improve use inside AgileCRM.

The following standard prefixes will be used:

TFI = TikForce Identity

TFP = TikForce Position

TFO = TikForce Organisation

Note: TFP and TFO will be followed by a variable that indicates the position or organisation.

The following AgileCRM tags are now available:

TFI-ID-Verified = User ID has been Verified

TFP-NPC-Lodged = National Police Check Lodged

TFP-NPC-OnHold = National Police Check OnHold

TFP-{var} = ? Not sure but related to a Position

TFP-{var}-Cancelled = Position Cancelled for Worker

TFP-{var}-Completed = Position Completed by Worker
TFP-{var}-Initiated = Position Initiated by Worker

TFP-{var}-InProgress = Position in Progress for Worker

TFP-{var}-AddWorker = Worker added to Position

TFP-{var}-Imported = Worker imported to Position

TFP-{var}-Assigned = Worker assigned to Position

TFP-{var}-Shared = Position shared with Worker

TFP-{var}-Assessed = Worker's Position Assessed

TFP-{var}-Rejected = Worker's Position Rejected

TFO-{var}-AddWorker = Worker added to Organisation

TFO-{var}-InviteWorker = Worker invited to join Organisation

TFO-{var}-IDIssued = Organisation issued ID Card to Worker

TFO-{var}-Manager = Worker set as Organisation Manager

TFO-{var}-Admin = Worker set as Organisation Admin

TFO-{var}-Assessor = Worker set as Organisation Assessor

TFO-{var}-Exemptor = Worker set as Organisation Exemptor

TFO-{var}-IDVerifier = Worker set as Organisation ID Verifier

Bug Fix: An issue with sub-organisations being able to access and view contact details for workers in parent-organisations who have started a position allocated to the suborganisation has been fixed.

Anglo Gold:

New Feature: Exemptible Credential Groups have been added to the system.

An Exemptor in an organisation, can view a list of all the credential groups used in all the positions for their organisation, and mark that credential group as being exemptible.

This feature can be accessed via org portal at:

Main Menu > Positions > Exemptible Credential Groups

Note: Org managers that review the users Position will see that some credentials are exempt, and Admins processing the Position will also see the exempt credentials for the user for the position. [More Information](#)

New Feature: Organisation managers can now create and manage Projects.

A project belongs to an organisation, has a set start and end date, and consists of a group of positions.

Each position assigned to the project can have workers assigned to it, and the position can be allocated to a supplier, that can provide workers to the project.

This new feature can be accessed from Org Portal at: Main Menu > Projects > Manage Projects

New Feature: In the Organisation portal, Managers can now recommend workers to join a Project.

This new feature can be accessed from Org Portal at:

Main Menu > Projects > Manage Projects > Project Details > Positions > View Details > Recommend Workers.

New Feature: Org Manager can accept/remove workers that have been recommended for a position assigned to a project.

This new feature can be accessed from Org portal at:

Main Menu > Projects > Manage Projects > Project Details > Recommendations > Accept/Remove

Enhancement: Assessors can now reassess workers for positions. Their past assessments are now overwritten by new ones by the same assessor.

TikForce Positions- <https://positions.tikforce.com>

Enhancement: The TikMe Welcome Email for workers that are shared a position can be skipped by setting 'SkipWelcomeEmail' to 'true' in the position settings. (For Iluka)

Note: Currently this functionality is only enabled for shared positions and not for assigned positions.

Bug Fix: An issue with the login page in positions sending to a 404-error page when clicking the signup link has been fixed.

Verification Portal - <https://verify.tikforce.com>

No Changes

MTM ID Site - <https://id.tik.me> - No Changes
