

Release scheduled to Go live on 31<sup>st</sup>-Jan-2018

## What's New

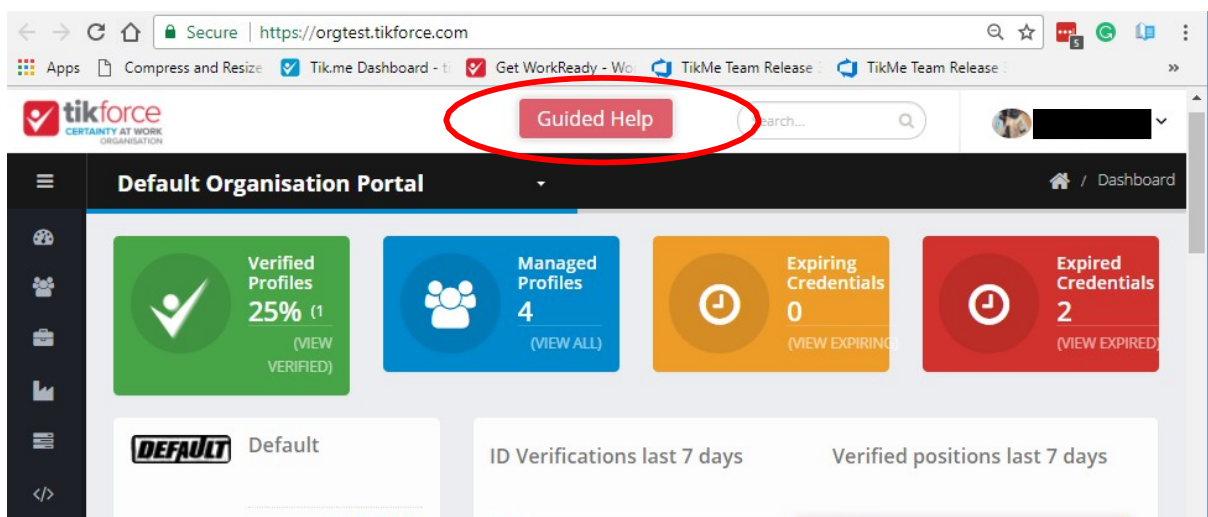

- Inline Manual has been enabled to allow TikForce admins to create walkthroughs and more help content for end users.
- Various front-end bug fixes across the system.

Tik.me Portal- <https://app.tik.me>

**Enhancement:** The current date/time/year has been updated across the TikForce platform including the maintenance page which displays when the app is offline.

Organisation Portal- <https://org.tikforce.com>

**New Feature:** Guided help has been added to the org portal to help users get familiar with the portal and different functions when they log in for the first time or when they need help.

Once users click on the “Guided Help” button on the top, an additional window pops up on the right showing list of tasks with which user may need help with.

**Enhancement:** An issue with the system throwing error message instead of validation error if org manager or admin tried to save a worker with a duplicate IssuerId has been resolved.

**Enhancement:** An issue with empty brackets displaying in the “Worker Name” list if the worker has not specified a “Preferred Name” has been fixed.

**Enhancement:** Descriptive placeholder values has been added to dropdown lists in the projects pages.

This enhancement can be accessed from org portal at:

Main menu > Projects > Manage Projects > View Details > Add position

**Bug Fix:** An issue with workers not receiving the position invitation email when invited to a position has been fixed.

**Bug Fix:** An issue with spelling errors in the “Exempt Credential” group pages has been fixed.

**Bug Fix:** An issue with Agile CRM tags not being created when workers were added to an organisation or invited to a position has been fixed.

**Bug Fix:** An issue with Agile CRM tags not being created whenever a worker was granted a manager or admin role has been fixed.

**Bug Fix:** An issue with Agile CRM tags not being created whenever an assessor accepted a worker's position has been fixed.

**Bug Fix:** An issue with Agile CRM tags not being created whenever a manager cancelled a worker's position has been fixed.
