

TikForce Platform Release Notes

Release R69

Proposed for release: 23rd Feb 2018

Organisation Portal

New Features

The following new features have been added to the Organisation Portal:

- A new feature has been added to the system to manage assessors. Managers and admins can now create and assign the assessor permission for a credential group to a user.

This new feature can be accessed at Org Portal > Assessments > Manage Assessors

- New Menu items have been added to the org portal to access assessments and exemptions.

These items can be accessed from Org portal > Main menu > Assessments/ Exemptions only after the entity settings “AssessmentsEnabled” and “ExemptionsEnabled” have been set to true.

- A new feature has been added to the system to perform assessments on a user's credentials. Users that have been assigned the assessor role for a credential can view a list of pending assessments, and any past assessments on a relevant credential.

This new feature can be accessed at Org Portal > Assessments > Pending Assessments

Enhancements

The following enhancements to existing functionality have been added to the Organisation Portal:

- The following reports have been created to meet Iluka and other Peak Entity reporting requirements:

Iluka Name	TikForce Name
R02 Person Report	TF-Org-Workers-Positions
R03 Company Report	TF-Org-Associations-Hierarchy
R04 Company Report	TF-Org-Workers-Positions-By-Supplier
R05 Role - Person Report	TF-Org-Workers-Positions-By-Position
R06 Credential - Person Report	TF-Org-Workers-Positions-By-Credential
R07 Role - Credential Report	TF-Org-Positions-Credentials-Details
R08 Person - Credential Report	TF-Org-Workers-Credentials
R09 Credential Expiry Report	TF-Org-Workers-Credentials-Expiry
R14 Data Retention Report	TF-Org-Workers-Credentials-Data-Retention

An additional report TF-Org-Workers-Credentials-Age has also been created to list credentials that don't have an expiry date but do have an age based on the issue date.

Some interface enhancements to the Reports area have also been added.

- An enhancement has been added to the system to add an Agile CRM tag when adding an assessor role to a user

This enhancement can be accessed at Org portal > Manage Assessors > Add Assessor

- The Organisation Select dropdown has been removed from the Add & Assign page in the Organisation Portal. The system will now automatically detect if the user and selected entity are designated Verifiers, and only

show the Add & Assign link based on that and the currently selected Entity in the Org site.

This enhancement can be accessed at **Org Portal > Manage Workers > Add & Assign**.

Bug Fixes

The following bugs have been fixed to the Organisation Portal:

- Issue where exempted workers weren't being notified by the Notify All Workers link in the Supplier Workers page has been fixed.
- An issue with non-verified workers for an organisation not appearing in the worker details of an allocated position has been fixed.

Known Issues

The following known issues have been identified with the Organisation Portal:

- The active exemptions page currently shows all exemptions, current, previous, active and inactive. This page will be reformatted into a current exemptions page and an exemption history page
- Credential Group Exemptions cannot currently be requested. Exemptions should be requested by a supplier to the organisation that owns a position.
- There is no view details link for a credential group assessor or exemptor.
- Dynamic reports in the Organisation Portal do not show the Organisations content and names. The data has been added for Iluka (both North Capel and Head Office) but this does not currently appear in the Dynamic Reports pick list and description.

TikForce Positions Application

No changes were made to the TikForce Positions Application.

TikMe Application

No changes were made to the TikMe Application.

Verification Portal

Release 69 Release Notes

No changes were made to the Verification Portal.

Single Sign On System

No changes were made to the Single Sign On System.
