

## TikForce Platform Release Notes

Release R70

Proposed for release: 8<sup>th</sup> March 2018

### Organisation Portal

#### New Features

The following new features have been added to the Organisation Portal:

- A new feature has been added to the system to login as a Credential Group Exemptor, Assessor or Report Reader. A staff member for an organisation that has been assigned any of these roles can now login to the org portal and will see only relevant information to their roles.

This new feature can be accessed from Org Portal.

#### Enhancements

The following enhancements to existing functionality have been added to the Organisation Portal:

- An enhancement has been added to the system to allow Org Managers to edit a worker's role from the "Worker Details page".

This enhancement can be accessed at Org Portal > Workers > Manage Workers > View Details > Edit Role.

- An enhancement has been added to the system to consolidate the approach to viewing positions.
  - Allocated positions have now been added to the main Manage Positions page.
  - Allocated positions will not see the Edit link, while the View Details link will redirect to the Allocated Position Details page.
  - There has also been information added to the Allocated Position Details page to indicate who the position was allocated by.
  - A new Position Owner column has been added to this page to indicate which ones are owned by the current organisation.
- An enhancement has been added to the system to allow Org Managers or Admins to Invite a worker to their organisation from the Manage Workers for Position page, if the worker is not yet a member of their organisation.

This enhancement can be accessed at Positions > Manage Positions > View details > Manage Workers for Position

- An enhancement has been added to the system to allow Org Managers to link to the Worker Details page and the Worker Position Details page from the Manage Workers for (allocated) Position page.

This enhancement can be accessed at Org Portal > Position (allocated) Details > Manage Workers for Position.

- An enhancement has been added to the system to remove the unnecessary "Notes" column from the Assessment History page.

This enhancement can be accessed at Org Portal > Assessments > Assessment History

## Bug Fixes

The following bugs have been fixed to the Organisation Portal:

- An issue with showing incorrect dynamic report names was fixed.

## TikForce Positions Application

### Enhancements

The following enhancements to existing functionality have been added to the TikForce Positions Application:

- When a user completes a Velpic Induction for their Position, the credential is automatically verified if they passed.

## TikMe Application

### New Features

The following new features have been added to the TikMe Application:

- A new feature has been added to the system to allow users to share their public profile via QR code.  
This new feature can be accessed at the user's public profile in Tik.me by clicking the Share my public profile link.

## Verification Portal

No changes were made to the Verification Portal.

## Single Sign On System

No changes were made to the Single Sign On System.
