# What's New in Aeries® Deep Dive

Camden Iliff

Vice-President of Product

Lynn Heatherly

Director of Product

## Description

A "Deep-Dive" into 3 to 5 significant new and upcoming features to Aeries. The actual items to be discussed will not be known until a few weeks before the conference when more detailed documentation will be made available for the topics to be covered. Topics may include recently added features to Aeries or features that are currently almost ready for release. The goal of this session is to prepare attendees for the use of these new features of Aeries and to answer any questions about them.
