ABOUT US

ALLXS specialise in contactless technology solutions. Our cashless card platform can help you manage your risk and improve efficiency with your very own closed loop payment, rewards and customer management platform. Now any business can experience automatically scalable cloud computing powered by our proprietary NFC enabled contactless transaction management platform. ALLXS is streamlining school campuses, venues and events with a complete hospitality, events management and integrated ticketing solution powered by an NFC enabled contactless transaction management platform. Now you have the freedom to access, pay, redeem, donate and be rewarded with a single tap.

WHY GO CASHLESS?

Join us in the Cashless Revolution. The world is ever changing and now Africa has the opportunity to set the pace moving towards safer and more secure transactions with cutting edge technology. Implementing cashless technologies within schools provides a convenient and safe transaction for teachers, parents, and students throughout the school community. Now, children cannot lose money: the money is directly linked to a bank account, which can easily be suspended, limited, and monitored. Lost chipped enabled cards can be reported, cancelled and replaced, and finally, money spent by children can be tightly controlled by their parents. Gone are the days where children lose their tuck money, bullies target their classmates for cash, petty theft on campus, or the misuse and abuse of cash.

Cash designated for tuck and lunch is often abused by children. It is not surprising that cash is being used for more than just lunch money. Kids can buy books, clothes, toys, alcohol, cigarettes, drugs, and much, much more. If the only payment system in place on a school's campus is directly linked to their parent's bank, and cash is explicitly banned from campus, children are limited.

This closed loop system can now ensure a safe and fear free environment for children. Free from bullies, free from cash abuse, free from being a target to outside crime.

THE ULTIMATE SOLUTION & BENEFITS

Your ALLXS school card can be used throughout your child's school environment. From tuck-shop's, uniform stores and fundraisers, right down to bus routes, sports events and school functions.

Each student will receive an ID card with a student photo and important information that will double up as their transactional medium. The tuck shop will have tablets and as each student reaches the front of the queue, they will touch their card to the back of the tablet. The student's profile will appear on the screen, showing their name, picture, card balance and any restrictions that have been set by you. The tuck volunteer will touch the screen to select the items as the student's order, and the money will be deducted from the card.

You will be able to access your child's account online, allowing you to have greater control of their tuck spend:

- Balances can be checked online and topped up through the system.
- You will be able to see what items your child is buying each day as well as how much they are spending.
- Restrictions can be set online so no mistakes are made when your children buy items at tuck each day. For example, if you decide you do not want your child to be allowed to purchase Energade, you can set this on their profile. When they touch their card to the tablet at tuck going forward, it will appear on the screen as something they are not allowed. Items with the allergens that you have selected on your profile will be deleted off the menu for your specific child.
- Set daily spend limits on the account.
- Allocate funds for certain vendors. Restrict your child's spending by allocating tuck money to the tuck-shops or uniform money for the uniform shop.

The cards can only be used at the school or any other school which is using the same system. Interschool functions, fundraisers and sporting events can now be completely streamlined!

ACCOUNT SET UP

1. Log onto www.allxs.co.za

-Click on the login tab.

-Create an account using your email.

-You will receive an activation link via email. Click on this link to activate your account.

2. Your profile.

-On the left hand side, click on the tab "accounts."

-Double click on the account listed.

-Set profile pictures, contact details, and other information such as your country's currency.

3. Your Child's account.

-Click on the "Link Card" tab at the top of the screen.

-Fill in your child's first and last name on the right hand side of the screen.

-Select "Link Card" If linking is successful, you will automatically be redirected to the accounts page. Here you will see both your account as well as your child's.

-If you have multiple children you can control all fund allocations from a single account. Simply click on the "Link Card" tab and repeat the process until every child is set up on your account.

-Double click on your child's account. Here you can set a low balance alert and email notification. This feature will notify you when your child's card is low on funds to ensure they never go without access to funds while at school.

-Click on the "Diet" tab at the top of the screen.

-Here you can set a daily spend limit and any dietary restrictions.

LOADING MONEY ONTO YOUR CARD

To load money onto your child's account you will need to:

1. Add ALLXS Media as a beneficiary on your online banking.
 - Banking details are found on the bottom left hand corner of your online account.
 - Your EFT reference will be listed in your account tab.

-If you would like the money to go straight into the card be sure to use the EFT reference, account number or full name of the child.

-Alternatively, if you would like to have complete control over the money in each account you can use your account email as the reference. Simply log into your account at any time and make a quick transfer to an account of your choosing from the Dashboard.

2. Make a deposit.
3. Send the proof of payment to accounts@allxsmedia.com.
