

Register for Elementary FLVS Courses through MDVS New Students

MyDistrict Virtual School (MDVS) is a franchise of FLVS. This means that your student will access the same online course work provided by FLVS but will be instructed by MyDistrict Virtual School teachers during the 180 days of the school year. While the full-time program does allow students to establish their own weekly schedule as to what day and time they complete schoolwork, students must achieve adequate weekly progress in order to continue virtual school as a full-time option. Required weekly progress is defined as 6% completion per class per week. Students not able to maintain the proper pace may be required to return to their zoned school.

You will see many references to FLVS, but please understand that you are taking courses through MDVS, your counties choice for virtual instruction.

Complete the Elementary Registration for MyDistrict Virtual School.

Students should take the four core courses:

1. Language Arts
2. Social Studies
3. Mathematics
4. Science

Students can choose to take up to two electives:

1. Physical Education
2. Technology
3. Art
4. Spanish

Elementary courses are broken into two parts - a first half (segment 1) and a second half (segment 2). Both segments make up a full year course.

Enrollments will be created in the system but will still need to be approved by the district and then your student will be placed with a teacher.

Please be patient with this process.

You're almost there! Below is a summary of the courses and segments selected for your student. By clicking "Submit Registration", the enrollments will be created. If your student is a homeschool student, you will need to provide one last verification step for the enrollments per Florida Statute. An email will be received outlining that process. **If your student is a public or private school student, their school will need to verify enrollments prior to starting the course.**
