

Setup Instructions

There are 2 steps to the setup process of the nextINTERACT app.

STEP 1: Download the nextINTERACT app

1. Please make sure your iPad is connected to the internet
2. Open the App Store and search for 'nextinteract' as one word
3. Select to purchase and download the app. It's free to download. This will then install onto your mobile device.

STEP 2: Login and download content

The second part is to login and download the assets onto your main library.

TIP: You will receive an email from Interact Technology to activate your account and specify a password of your choice. Please follow the instructions in the email.

Account Verification

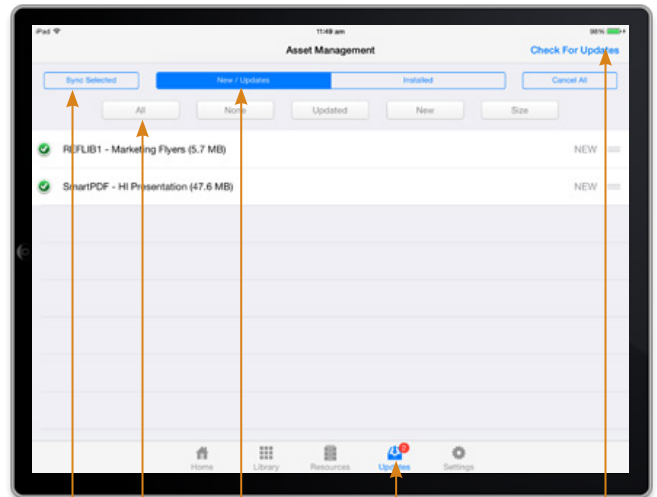

To enable you to download your assets you need to first verify your account which is done through the **Home** tab.

Assets Download/Updates

Updating and downloading assets and resources is done through the **Updates** tab.

1. Select Home
2. Enter email address and password. You will receive these details from support via email
3. Click on verify, you will get a green tick once the account is verified

1. Select Updates
2. Click on New/Updates
3. Then tap on Check For Updates
4. Select whether to download All/None/Updated or sort the list by New/Size
5. Then tap Sync Selected

TIP: Please refer to the nextINTERACT User Guide contained within the app, to find out how to customise the look of your nextINTERACT app and read more about the app's features and functionalities.
