# HOOTBOOTH

EventPro Printer Tray

Setting up the printer tray

The printer tray brackets use the existing pedestal and thumb screws.

Printer Shelf cross bars

Once the printer shelf is attached to the pedestal, plase the cross bars accross the shelf.

Put the printer on the tray

Place the printer on the printer tray.

Place the cover over the printer.

Attach the power cable.

Attach the USB cable

Rubber Spacers inside the printer cover

The printer cover has 2 rubber spacers inside the cover.

These spacers assist with keeping the printer flush at the front so that the prints drop into the printer drop tray.
