

Getting Started with Amazon Chime

Vonage has partnered with Amazon to offer a powerful online meeting, video conferencing and collaboration service: **Amazon Chime**.

Amazon Chime is available to all customers at no additional cost and is bundled together with your Vonage[®] Business Essentials plan.

Enterprise-grade features include:

Meetings call you	Switch between devices	High-quality video & audio
Privacy	Conferencing for up to 100	Meeting scheduling & hosting
Mobile app	Meeting Recording	Automatic call reconnection

Get Started with Amazon Chime

All new users added to a Vonage account will receive an email from Amazon. Accept the email invitation and follow these steps to create your account and start using Amazon Chime.

1. Click **Download Amazon Chime** to your desktop and/or mobile device.
2. Complete the registration by entering the same email address where you received the invitation email.
3. Click **Sign in/Sign up**.
4. Click **Login with Amazon**.
5. Select **Create an Amazon.com account**.
6. Provide the same email address where you received your Amazon Chime invite and create a password.
7. Click **Create Account** and click **Okay**. You will receive a verification email.

8. Click **Verify Me** in the verification email and enter the security captcha to complete the setup.

Check out our [Getting Started with Amazon Chime](#) You Tube video to follow the step-by-step instructions.

Lost or Never Received Your Amazon Chime Invite? Check your spam folder to see if the email is in the folder. If the email is not in the spam folder, go to [Amazon Chime Invite](#) to complete and submit a new invite request.
