## Boolean Search:

Where can I use Boolean operators?

Why and when Should we use Boolean in TNR 2.0?

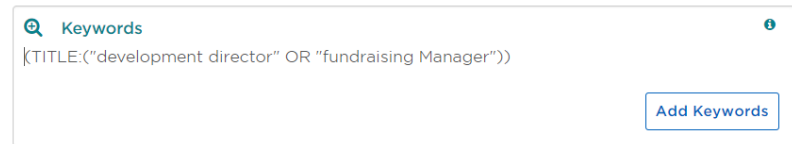

How to use the different operator?

# Where can you use Boolean Search in TNR 2.0?

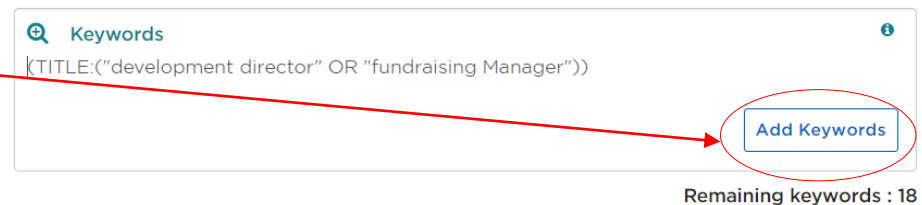

1. Visit refine search

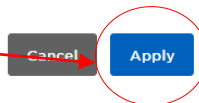

2. Enter your Boolean search String

3. Click on Add Keywords

4. Apply your search

5. Your search query will appear at the top of the page

Search Query:

United States

<code>((TITLE:(\"development director\" O..</code>

# Boolean Search: Why and When?

---

1. Limit the number of results returned
2. Increase (!) the number of results returned
3. Target specific key elements
4. Account for a hybrid role/market

# The Boolean operators

---

In TNR 2.0 you can use the following operators:

- AND
- OR
- “Quotation”
- (Parentheses)
- NOT
- (title:())

Let's explore how we can use the different operators

# AND

AND: will return results containing all keywords

Java AND SQL AND Salesforce

Keywords  
Java AND SQL AND Salesforce

Remaining keywords : 17

When entering Java AND SQL AND Salesforce, the tool looks through our database to bring back data containing all these keywords, anywhere in a title or in a job description.

# OR

OR: will require that at least one of the words appears in the results

“Vice President” OR VP

Keywords  
"Vice President" OR VP

Remaining keywords : 18

VP-Senior Front End Developer  
JPMorgan Chase & Co. at Jersey City, NJ  
Estimated Salary: \$151,000  
JobNetwork (First seen:2017-11-10)

VP-Senior Front End Developer Req #: 170112666 Location: Jersey City , NJ  
US Job Category: Technology Potential Referral Amount: 5000 US Dollar (USD)  
Global Technology Infrastructure (GTI) in JPMorgan Chase is a worldwide organization charged with delivering technology infrastructure - end user, compute, data, transport, instrumentation and facilities - to all lines of business in all regions of the world. Our mission is to deliver a data-driven, software-defined, straight-through provisioned environment which expands and contracts at the speed of the business need. Our products need to handle information at

When entering “Vice President” OR VP, the tool looks through our database to bring back data containing either of the keywords, in the title or description.

# “Quotations”

Entering quotations around a specific expression or term requires words to be searched as an “exact phrase” as it appears within the quotation

The screenshot shows a search interface with a search bar containing the text "Critical care nurse". A red box highlights this text, and a red arrow points from it to a job listing titled "Critical Care Nurse Practitioner Days". The job listing is from NYU Langone Orthopedic Hospital at New York, NY, with an estimated salary of \$92,000. The listing includes a description of the role and a link to the job network. Below the search bar, there is a section for "Remaining keywords : 19" and a list of job listings, including "Critical Care Nurse Practitioner Days" and "Staff Nurse.Critical Care".

\*Quotations aren't necessary if you are using only one keyword

# (Parentheses)

(Parentheses): Requires that words be processed in a specific order  
Lending AND (mortgage OR Housing)

This query means bring back either of these two keyword options:

- Lending + Mortgage
- OR
- Lending + Housing

Remaining keywords : 17

**Mortgage Loan Originator**

Amboy Bank at Old Bridge, NJ

Estimated Salary: \$91,000

Job Descriptions Mortgage Originator Department: Branch Administration  
Reports to: Residential Lending Manager Cost Center: FLSA Status: Non - Exempt Location: NJ Schedule: Full-Time; Monday - Friday Salary Grade: Subordinate Reports: N/A Job Code: Date Revised: 6/30/2017 Position Summary The Mortgage Originator's primary goal is to originate first and second mortgage loans by responding to incoming calls, email, online applications and branch referrals. The Mortgage Originator will provide fist call resolutions and

# NOT

The operator **NOT** is used to **exclude** certain words or phrases from coming back in the results.

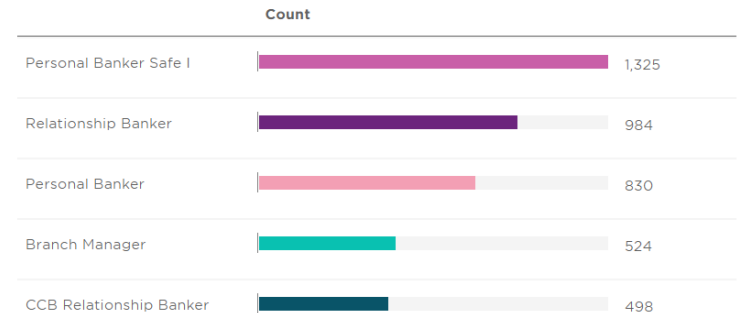

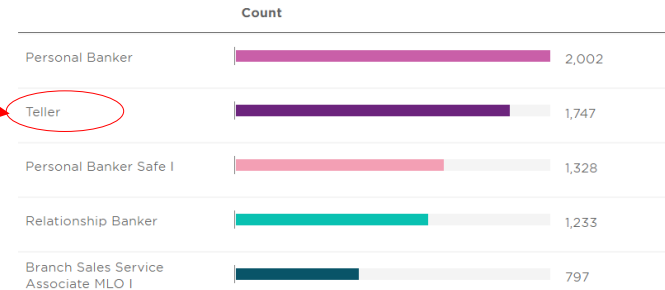

For example if my search for banker yields a title I do not like in my results:

Keywords

Banker

Remaining keywords : 19

Personal Banker is the most common title given to positions that match the occupation and criteria provided.

# (title:( ))

The title operator is used to restrict search results to the title field only

Keywords

(TITLE:( "development director" OR "fundraising manager" )) AND bilingual

Remaining keywords : 17
