Users

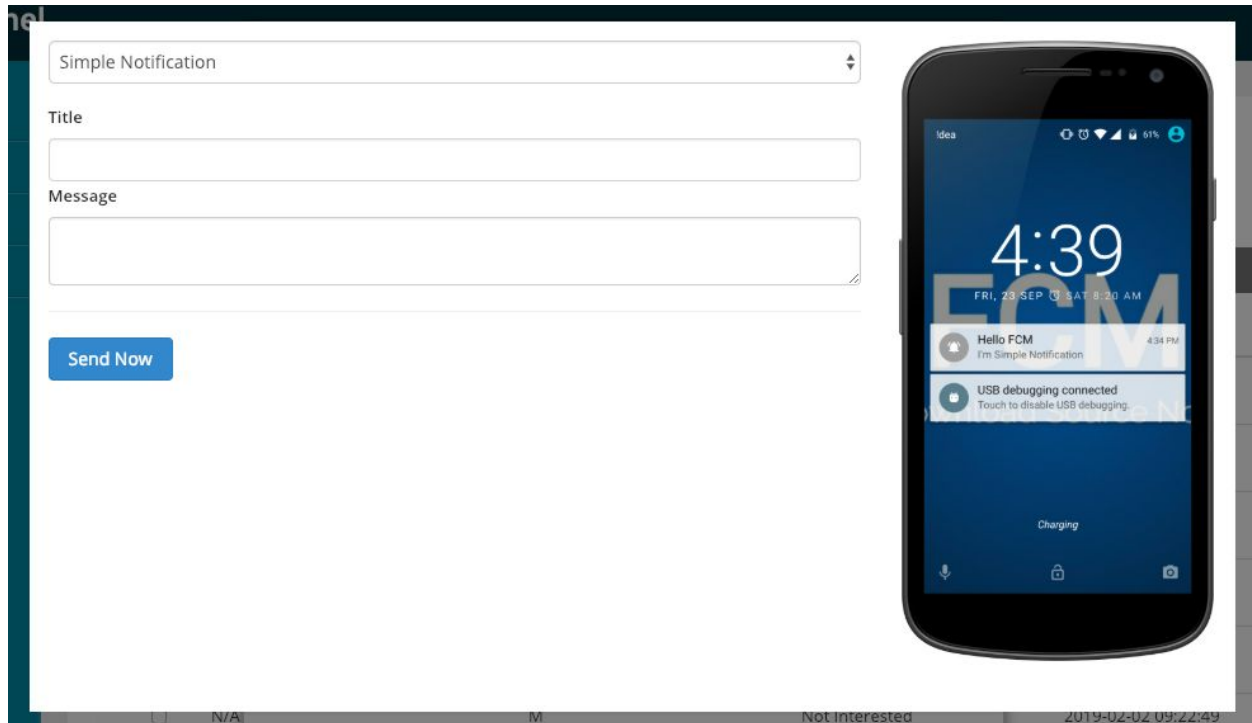

On this screen, all the users will be displayed and there are 3 types of users:

1. Client (who are registered with you)
2. Lead (who are interested)
3. Not Interested (who skipped registration)

There is a filter drop down. You can filter users on the basis of:

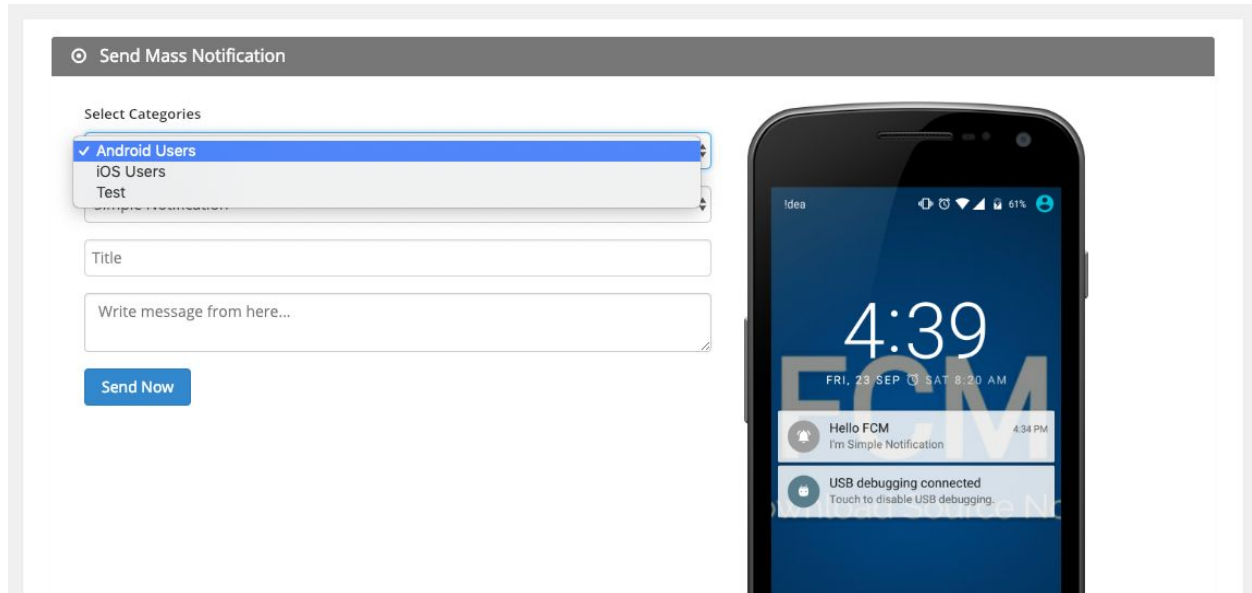

- Android Users
- iOS Users
- Clients Users
- Leads
- Interested Users

If you want to send a notification to anyone, then please click on **“Send Noty”** button.

Send Notification (one to one)

Enter Title & Message, and then click "Send Now"

Send Notification (Mass)

- Selection Category of Users
- Enter Title & Message, and then click "Send Now"
- Notification to All users will be delivered.

App will be opened if the user clicks on the notification.
