

AQUARIUM LIGHT

INSTRUCTION MANUAL

HMD-B2 - 14xL.E.D

HMD-C2 - 32xL.E.D

HMD-C4 - 64xL.E.D

Before installing your All Pond Solutions LED lighting system ensure you have read the instructions and taken note of all safety advice. If you have any further questions or concerns please contact the retailer before installing the LED light system.

INSTALLATION

Before installation check that the included power cable will reach to a mains plug socket.

Attach the systems bracket to your fish tank rim and tighten this in place by turning the two screws.

Once in place plug the system in and for the HMD-B2 model switch the system on using the on / off switch located on the LED light head.

The HMD-C2 and C4 can be turned on using the on / off dimmer switch located on the back of the adjustable bracket.

TROUBLESHOOTING

System will not turn on

- Check plug is inserted correctly in the mains and switched on
- Check the unit is switched on using its own switch

System is not bright enough

- Check the dimmer is turned to its brightest
- Ensure the adapter connector is inserted into the light fully

FEATURES

- 64 long lasting LED's
- Fish tank rim adjustable clamp
- To fit rim max size: 10mm.
- Built-in reflectors to maximise output
- Flexible adjustable arm
- Fitted with dimmer switch

SAFETY

IMPORTANT! Disconnect the mains electricity supply before attempting any installation / maintenance or handling of any kind.

- Make sure the power cable is run safely to the mains socket as if this is pulled or tripped over this will break the system and cause damage.
- Do not connect to any voltage other than stated
- Regularly inspect the system and cable for any kind of damage or deterioration
- The power supply must be earth and fused at 3 amps
