# GGM KITIP24xx-48xx

Change the Recording Mode

Valid for those references :

- GGM NVRL0104
- GGM NVRL0104P
- GGM NVRL0108P
- GGM NVRE0104P
- GGM NVRE0108P
- GGM KITIP24C5MP
- GGM KITIP48C5MP

Where and How ?

Go to the **Main Menu** / SETUP then **Record** and again **Record**. Last, **Record Schedule.**

This menu allows you to specify when the records video and defines the recording mode for each channel.

The recording schedule lets you set up a schedule like, daily and hourly by normal (continuous) recording, motion Detection, or I/O alarm.

3 colors are used :

- **Normal (GREEN)** = Continuous Recording
- **Motion (YELLOW)** = Motion Detection Recording
- **IO** (RED) = Recording from Alarm contacts (I/O Port)
- **No Color =** No Record.
