

Software Setup Guide

1. Launch the **Game Capture HD** software on the computer (if needed, install Game Capture Software from the website first)

2. Wait for the camera feed to display on the **Game Capture HD** software (if you hear feedback, mute the computer)

3. Launch the **echo** app on the computer (follow the instructions on the getting-started-guide you received via email)

4. Press the **record** button to start and stop recording a clip

(you should see a 2-3 second delay. **It is important** that you stop recording after you see the play finish on the preview screen)

iPad Setup Guide

2. Connect the iPads to the **ECHO** wifi network

3. Start **echo1612** on the iPads

4. Tap the **Add Clips** button at the top of the screen and select **Nearby Computers**.

Now select your computer from the left and turn on **Download New Clips**.
(Any recorded video clips should start downloading)

1. Turn on your iPads and if needed install **echo1612** from the app store
