

MASTER AMINO ACID PATTERN

100 TABLETS

Non-GMO
Vegan
Soy-Free
Gluten-Free

Master Amino Acid Pattern™ is pre-digested 100% vegetarian protein that has been featured in the Physician's Desk Reference and is comprised of non-soy legumes. For fitness goals, we recommend combining it with any green drink.

- Aids in normalizing protein synthesis
- Assists with the stabilization or recovery of muscle strength, endurance, and volume
- Helps keep body tissues firm
- Helps minimize body fat
- May support a weight loss regimen

THE ULTIMATE VEGAN PROTEIN

Pure Planet's MAAP (Master Amino Acid Pattern) is a pure, vegan protein that is predigested and contains no soy, GMOs, or additives of any kind.

WHY WE OFFER MAAP

Pure Planet believes that vegans and vegetarians can have strong, lean and muscular bodies without consuming any animal flesh or animal byproducts. We believe that this patented product can be an essential tool for healthy aging, weight loss, and safe bodybuilding practices.

INTERESTING FACTS

MAAP is in the Physicians' Desk Reference with over 30 published clinical studies proving its effectiveness. It is prescribed by doctors to those with renal failure and those on dialysis machines because it does not burden the liver or the kidneys. It is used in hospitals to prevent muscle-wasting for those who suffer from paralysis or are comatose. MAAP passes through lymph fluid, bypassing the blood. Unlike other protein sources, it leaves behind no uric acid. MAAP is 99.9% utilized in cell metabolism; therefore, it only produces 1% nitrogen catabolites (metabolic toxic waste) compared to other dietary proteins that release an average of 68% nitrogen catabolites. This also means that 99% of MAAP constituent amino acids act as precursors or "building blocks" for Body Protein Synthesis (BPS), to become the body's constituent proteins. Meanwhile, other dietary proteins and protein supplements provide a BPS of 16 – 32% NNU and are therefore 3 to 6 times lower compared to MAAP. Other protein sources also create uric acid (high levels of uric acid can lead to gout or kidney disease) and need 3 – 6 hours to be digested. MAAP is absorbed in the small intestine within 23 minutes of its ingestion.

HISTORY

Throughout history, man has required protein for energy, endurance, and muscle-building. Early man relied primarily on animal flesh as a source of protein. However, as certain societies developed unique cultural and religious norms, they became averse to eating animals. Instead, they sought vegetarian sources of protein, such as seeds, nuts, beans, and legumes. Not until the patented MAAP was introduced has man found the perfect source of vegan protein; MAAP is far more digestible and assimilable than other sources of protein and much safer than animal sources.

POTENTIAL BENEFITS

MAAP is clinically proven to help reverse muscle-wasting and to maximize protein synthesis. It also increases the elasticity of our skin, reducing sagging and wrinkles. It increases cell strength, minimizes body fat, improves mental stability, increases muscle volume, and helps reduce muscle soreness. It does not cause any fecal residue. Perhaps most importantly, it provides a perfect protein source for those whose lifestyles or dietary requirements include avoiding the consumption of animal protein.

HOW IT IS MADE

MAAP is made by a patented process using predigested protein from non-soy legumes. It contains no binders, fillers or excipients. It is a pure, vegan protein.

Supplement Facts

20 servings per container

Serving size **5 tablets (5g)**

	Amount per serving	% Daily Value*
MAP® Patented proprietary blend	5000mg	†
L- Leucine, L- Valine		
L- Isoleucine, L- Phenylalanine		
L- Threonine, L- Methionine		
L- Tryptophan, L- Lysine Acetate		

* The % Daily Value (DV) tells you how much a nutrient in serving of food contributes to a daily diet. 2,000 calories a day is used for general nutrition advice.

† Daily value not established

SUGGESTED USE:

Take 5 tablets daily. As an exercise aid, take 5 to 10 tablets 30 min. prior to physical activity or as directed by a health professional. May be taken with food.

If you have a medical condition, are pregnant, lactating or taking medication, consult your health care professional before using this or any other nutritional supplement.
