### Scarifier Drive Belts

The new 2015 Guarded Scarifier will be supplied with an A56 drive belt which connects the tractor PTO to the Scarifier input pulley. This belt is incompatible with MK3 tractor models and will require an A55 belt in order to function as designed. The A55 belt is not supplied as standard and should be purchased as an addition at order stage if required.

\*\*Both A55 & A56 are compatible with A2550 and A230D models.
