IT'S MY LIFE Scrapbook Kit

Finally, a special place to collect and display your favorite photographs, postcards, letters and works of art.

Here are some terrific tools, tips and techniques to get you started.

Cut it Out

A good scrapbook starts with good pictures. Remember, you don't have to use every photo you own, just your favorites. Get organized by grouping your photographs according to themes, like birthdays, holidays, family, & friends.

Say Cheese!

Cutting away unnecessary background can help highlight your main subject and make your photos more interesting.

Try trimming your pictures using the cropping stencil. Place the desired stencil shape over your photograph, centering the image. Trace around the stencil and then cut it out.

Mounting and Framing Photographs

Decide on a background for your page. If you are using scrapbook paper, select a sheet, lay it on the page and then trim to fit.

Use the stencil and your scallop-edge scissors to create interesting backdrops or frames.

Pretty penmanship can add personality to any page. Here is a fancy font for you to try, or better yet, design your own artful alphabet.

Details, Details, Details...

Decorative elements can transform the ordinary into the extraordinary. Think "origami"! Use your paper scraps to create flowers, grass skirts, ocean waves, blades of grass, clothes, butterflies, bikinis, whatever! Remember to keep your designs fairly flat so they won't squish too much when the scrapbook is closed.

Add a tiny treasure envelope to your page, and then tuck in a locket of hair, a ticket stub, a little photo, a four-leaf clover, or a secret message.

Use your supplies to decorate the outside of your Scrapbook album.

Lay it Out

Think of your scrapbook as a creative collage of your personal stuff.

Use one or more photos, tickets, award ribbons, newspaper clippings, etc...anything that tells your story.

Arrange your page, moving the items around until you achieve the look you want, then glue everything into place.

What are you thinking?

Use your journal pen to jot down names, dates, locations and other important details.

Your sticker sheets can be used to create titles and themes for your pages.

Write down a favorite poem, song lyrics, or your own special thoughts.

Mini Memories

Use the leftover scraps to decorate your mini key chain scrapbook and then clip it onto your backpack. It's the perfect place to store photos of your friends.
