Designed in USA • Made in China • Conforms to ASTM D-4236

Non-toxic Safe for Children

Fashion Headbands

Transform a rainbow of satin headbands into ten amazing accessories. Your kit comes packed full with fun fashion extras - rhinestones, flowers, feathers, yards of ribbon and more!

Share the fun - why not host a headband party and invite your favorite friends over for some creative crafting?

Before You Begin

It is helpful to have a pair of scissors and a roll of tape handy. Use your scissors to cut the ribbons. The tape can be used to hold the ribbons in place while you wait for the glue to dry.

Your headbands come attached to a backer card. Save this insert to use as a work station. It's the perfect place to rest your headbands while you wait for the glue to dry.

Remember, work with clean hands on a clean work surface. Although the glue is washable, it's a good idea to keep a damp paper towel handy for clean up.

Helpful design tip: Since the headbands are satin, any extra glue will leave a dark spot on the fabric. Use the smallest amount of glue necessary for attaching your accessories. Wipe off any extra glue right away with your finger or a damp cloth.

WARNING:
CHOKING HAZARD - Small parts.
Not for Children under 3 years.

Design Time

Plan out how each of your headbands will be decorated. You can refer to the pictures on the box or create your own styles, it's all fun and it's all up to you!

Ribbon Wrap

Glue the end of the ribbon to the inside, bottom edge of your headband. Allow it to dry completely. You can also secure it with a piece of tape while you wait for the glue to dry.

Wind the ribbon around the headband until you reach the other end. Cut the ribbon and glue it to the inside of the bottom edge of the headband. Set it in your workstation to dry.

Simple Stripe

Draw a thin line of glue straight down the center of the headband. Apply the ribbon, leaving a little extra on each end. Tuck the ends under and glue them in place. Set it in your workstation to dry.

Bows, Bows, Bows

Create big or little bows using your ribbon. Simple bows can be made by folding your ribbon into loops. Tie the ribbon in the middle using a piece of thread or thin ribbon – leave extra hanging so you can tie it to your headband.

Glue a rhinestone in the center to make your bow sparkle. To secure the bow, put some glue under the ribbon to keep it in place.

Flowers and Butterfly

Slide these onto the headbands by the elastic loop. If you want to permanently attach them, add a drop of glue to the back to hold them in place on the headband.

Feathers and Rhinestones

Glue the feathers and rhinestones directly onto the headbands. You can also attach them to the extra elastic felt piece and then slide them on. To make them permanent, add a drop of glue to keep the elastic in place.
