Important information about this paint

- The paint included is a non-toxic acrylic paint that dries permanently on most surfaces.
- Be sure to wear old clothes and to cover your work surface with newspaper. Clean up any spills immediately with soap and water.
- Paint can settle and separate over time. Mix each color thoroughly before you begin painting. If the paint seems to thick, stir in a small drop of water.
- Rinse and dry the brush before switching colors.

Design Ideas

There is no right or wrong way to paint your flowers. Just be creative and have fun. To make small dots or designs, you can even use the handle of your paintbrush.

Try mixing the paint to create new colors. Add a little white paint for a softer pastel look.

Yellow + Blue = Green

Yellow + Pink = Orange

Pink + Blue = Purple

When the flowers are dry, embellish your designs with a little glitter paint. Set them aside to dry before you use them. This may take a few hours.
