The power of
creativity

In 2013, Creativity for Kids launched the Creativity Comeback to bring increased awareness to the importance of creativity for a balanced, healthy childhood. According to a Michigan State University study, kids involved in creative activities were 8 times more likely to start a business or receive a patent. Creative activities such as the Creativity Can™, teach problem solving, stimulate creative thinking and encourage imagination.

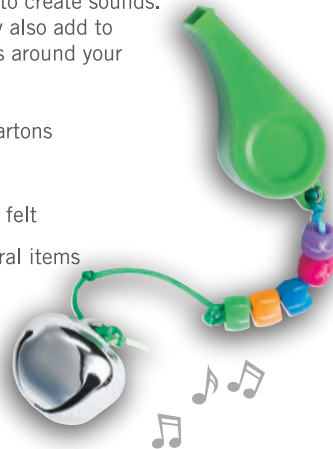

INCLUDED IN THIS KIT:

A whistle, bells, beads, cord, rubber bands, plastic eggs, spoons, straws, duct tape and more!

NOT INCLUDED IN THIS KIT: **Instructions!**

Create a maraca, a spin drum or any instrument you wish. There is no right or wrong way to create sounds. Use your imagination! You may also add to the components from materials around your house, such as:

- Toilet paper tubes and egg cartons
- Paper plates and bottle caps
- String, yarn, lace, beads and felt
- Stones, twigs and other natural items

You get the idea, because...
“Creativity Can make music.”
