Let's COLOR!

Coloring by Number

1. Use the Coloring Number Guide and the Color Key to see which marker color should be used in each section.
2. Start at the top and work down, or from left to right if you're a right-hander (right to left if you're a left-hander). This way you won't smear wet ink.
3. When all sections are colored in, review your work and add any finishing touches.
4. Apply the double-sided mounting tape to the back of the board, one at the top, one at the bottom and one going diagonal across the center.
5. Center the board on the Foam Mounting Board and press down firmly.
6. Attach the sticky-back Hang Tab and hang it on your wall.
7. When you've completed your Color By Number activity, be sure to visit www.greatartstartshere.com for more fun ideas.
