

EXTERNAL SWITCH

Part Number: GS-3-ETA

DESCRIPTION

The GRIDSMART Power-over-Ethernet (PoE) Switch Assembly is designed to connect multiple cameras to the GRIDSMART Processor, enabling advanced detection, infrared, or specific stopbar applications.

SPECIFICATIONS

Dimensions: 8" x 2.5" x 1.5"
(20.32 x 6.35 x 3.81 cm)

Operating temperature: -29°F to 165°F
(-34°C to 74°C)

Storage temperature: -29°F to 165°F
(-34°C to 74°C)

Maximum humidity gradient: 5-95% non-condensing

FEATURES

5-port Power-over-Ethernet switch (50W total)

Extends camera capacity to up to 4 non-fisheye cameras

No external power or power management required

Powder coated, steel enclosure
