

How to Redeem your MV Discount Code

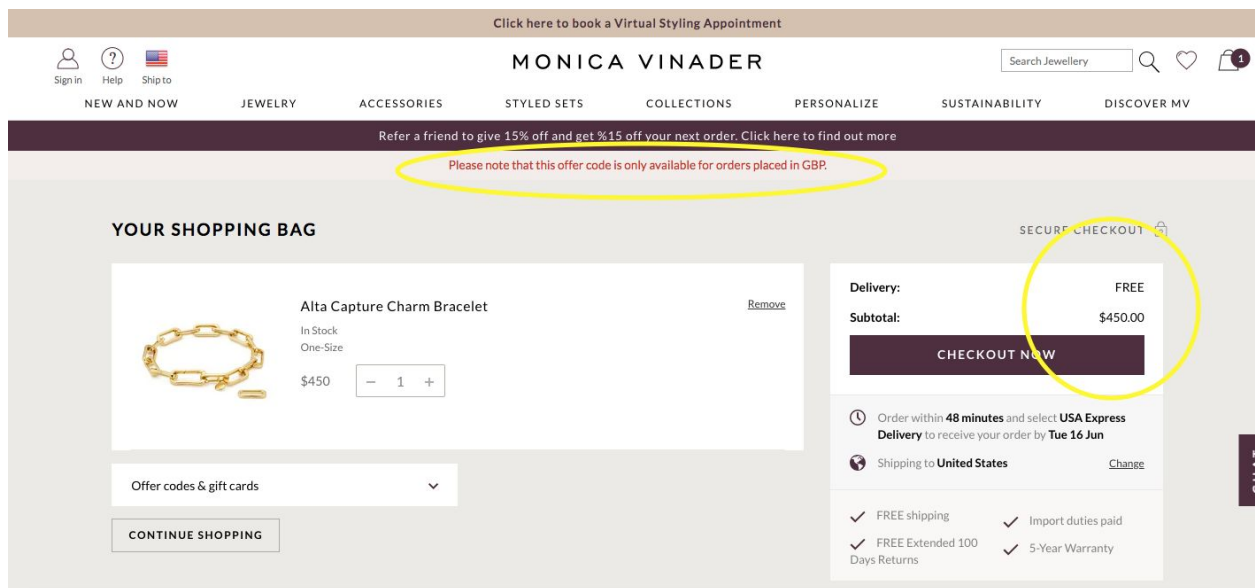

Having trouble redeeming your redemption code because you are shopping from a country other than the UK? Follow these steps in order to redeem your code!

Step 1: Add your desired product to your shopping cart, like normal.

Step 2: Apply your discount code to your item in the shopping cart.

Step 3: A notice will appear that says "Please note, this offer code is only available for orders placed in GBP" and the discount will not show that it has been applied to this item.

Step 4: Once you are ready to complete your purchase, click CHECKOUT NOW and complete the checkout process like normal. Note: at this point, it still looks like your discount has not been applied. This is correct.

Step 5: Once you have reached the payment processing step of the checkout process, a box will appear that says “Payment Currency.” The currency will be whatever country you are currently shopping from.
