WiDRIVE 2

Transfer media files wirelessly to <u>any</u> USB storage device...

Instructions: Device:

1 Connect power and press the power button.   WiDRIVE 2
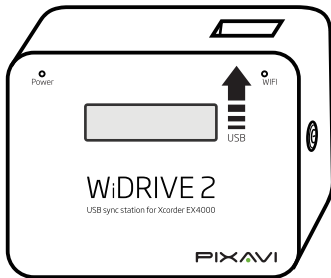

2 Insert any USB storage device in the USB port.   WiDRIVE 2

3 Select «Sync» and then select «WiDRIVE».   EX4000

4 Select «Sync» to start transferring media files.   EX4000

5 When the transfer is complete, take the USB storage   USB storage
   device out of the WiDRIVE 2 and connect it to your PC.
   The media files are located on the root level.

Note:

▶ Remember to move/copy the media files from your USB storage device between each sync. If not, the next sync can overwrite your files without notice.

▶ Syncing on the move? The WiDRIVE 2 is capable of running on its internal battery for 5 hours.

▶ You can also transfer media files directly to a shared folder on your pc (requires admin privileges).
