

Fleet Freedom V4 - Adding New Mobile Device - iPhone

Steps

1. From mobile device, open App store and search for Trak iT Mobile to download the application onto the phone.

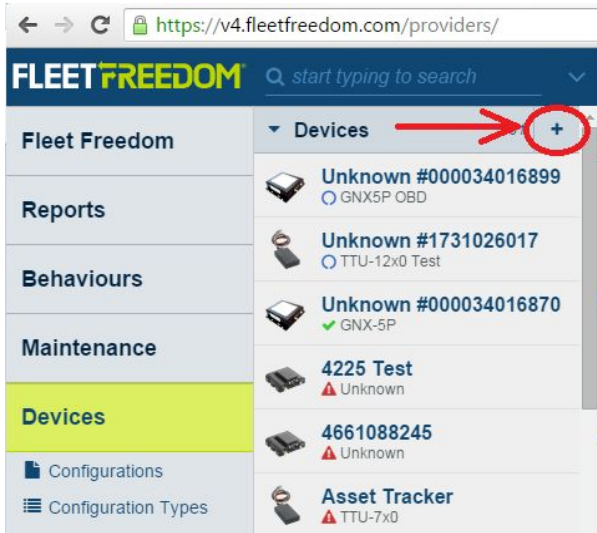

Once downloaded, open the Trak iT Mobile application on the phone. A 6 digit Keycode is required which will come from the Fleet Freedom Web application: v4.fleetfreedom.com

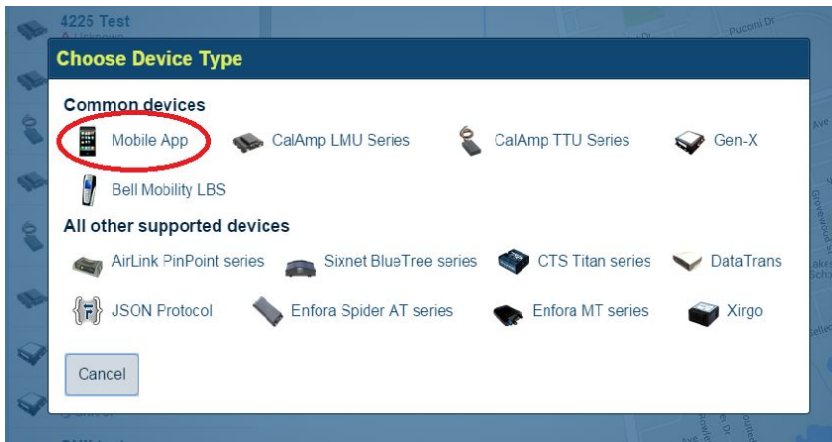

2. Click on Devices from the Stripe on the far left hand side.

3. From the panel that opens up to the right, click on the + sign.

4. Select Mobile App.

5. Get Key Code

6. Input Keycode provided within the mobile application on your mobile device and select Configure.

Mobile App

Step 2 - Authorization
Configurations

Mobile

Please enter the confirmation code in the next 10 minutes.

Key Code

843975

Should the code not work, try generating a new code and remember you only have 10 minutes.
To install and authorize additional mobile devices, simply generate a new code for each.
